Notes to Condensed Consolidated Financial Statements
March 31, 2026
(unaudited)

(1) Basis of Presentation

Liberty Global Ltd. (**Liberty Global**) is a Bermuda exempted company limited by shares. In these notes, the terms “we,” “our,” “our company” and “us” may refer, as the context requires, to Liberty Global or collectively to Liberty Global and its subsidiaries. We are an international provider of broadband internet, video, fixed-line telephony and mobile communications services to residential customers and businesses in Europe and are an active investor across the infrastructure, content and technology industries. We also provide innovative technology solutions and finance services.

We provide residential and business-to-business (**B2B**) communications services in (i) Belgium and Luxembourg through certain wholly-owned subsidiaries that we collectively refer to as “**Telenet**” and (ii) Ireland through another wholly-owned subsidiary (**VM Ireland**). In addition, we own 50% noncontrolling interests in (a) a 50:50 joint venture (the **VMO2 JV**) with Telefónica SA (**Telefónica**), which provides residential and B2B communications services in the United Kingdom (**U.K.**), and (b) a 50:50 joint venture (the **VodafoneZiggo JV**) with Vodafone Group plc (**Vodafone**), which provides residential and B2B communications services in the Netherlands.

We also have controlling interests in Wyre Holding BV (**Wyre**), an independent infrastructure company in Belgium, and Formula E Holdings Ltd. (**Formula E**), a global electric motor racing series.

Through April 30, 2026, we provided residential and business telecommunications services in Slovakia through UPC Slovakia (as defined in note 4). Effective with the signing of the share purchase agreement on December 18, 2025, we began accounting for UPC Slovakia as held for sale. Accordingly, the held-for-sale assets and liabilities of UPC Slovakia are included in other current assets and other accrued and current liabilities, respectively, on our condensed consolidated balance sheets. Consistent with the applicable guidance, we have not reflected similar reclassifications in our condensed consolidated statements of operations or cash flows. For additional information, see note 4.

Our unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (**GAAP**) and with the instructions to Form 10-Q and Article 10 of Regulation S-X for interim financial information. Accordingly, these financial statements do not include all of the information required by GAAP or Securities and Exchange Commission rules and regulations for complete financial statements. In the opinion of management, these financial statements reflect all adjustments (consisting of normal recurring adjustments) necessary for a fair presentation of the results of operations for the interim periods presented. The results of operations for any interim period are not necessarily indicative of results for the full year. These unaudited condensed consolidated financial statements should be read in conjunction with our 2025 consolidated financial statements and notes thereto included in our 2025 Annual Report on Form 10-K, as amended (our **2025 10-K**).

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Estimates and assumptions are used in accounting for, among other things, the valuation of acquisition-related assets and liabilities, allowances for uncollectible accounts, certain components of revenue, programming and copyright costs, deferred income taxes and related valuation allowances, loss contingencies, fair value measurements, impairment assessments, capitalization of internal costs associated with construction and installation activities, lease terms, useful lives of long-lived assets, share-based compensation and actuarial liabilities associated with certain benefit plans. Actual results could differ from those estimates.

Unless otherwise indicated, ownership percentages and convenience translations into United States (**U.S.**) dollars are calculated as of March 31, 2026.

Certain prior-period amounts have been reclassified to conform to the current period presentation, including the separate segment presentation of Telenet and Wyre, as described in note 15.

(2) Accounting Changes and Recent Accounting Pronouncements

Accounting Changes

ASU 2025-05

In July 2025, the Financial Accounting Standards Board (the **FASB**) issued Accounting Standards Update (**ASU**) No. 2025-05, *Measurement of Credit Losses for Accounts Receivable and Contract Assets (ASU 2025-05)*, which provides a practical expedient for all entities to assume current conditions as of the balance sheet date will remain through the reasonable and supportable forecast period for eligible assets. Entities will continue to be required to adjust the historical data used in the estimation of credit losses to reflect current conditions. If elected, the practical expedient should be applied consistently to all eligible accounts receivable and contract assets. Additionally, entities that have elected the practical expedient must disclose their decision to do so. We adopted ASU 2025-05 on January 1, 2026 and are applying the practical expedient, noting no significant impact to our credit loss provisions.

ASU 2023-09

In December 2023, the FASB issued ASU No. 2023-09, *Improvements to Income Tax Disclosures (ASU 2023-09)*, which is intended to enhance the transparency of income tax matters within financial statements, providing stakeholders with a clearer understanding of tax positions and their associated risks and uncertainties. ASU 2023-09 requires public business entities to disclose, on an annual basis, specific categories in the rate reconciliation and provide additional information for reconciling items that meet a specific quantitative threshold. We adopted ASU 2023-09 on January 1, 2025 on a retrospective basis. For additional information concerning our income taxes, see note 11.

ASU 2023-05

In August 2023, the FASB issued ASU No. 2023-05, *Business Combinations — Joint Venture Formations: Recognition and Initial Measurement (ASU 2023-05)*, which outlines updates to the formation of entities that meet the definition of a joint venture as defined by the FASB. ASU 2023-05 requires a joint venture to measure its assets and liabilities at fair value upon formation. We adopted ASU 2023-05 on January 1, 2025.

Recent Accounting Pronouncements

ASU 2025-06

In September 2025, the FASB issued ASU No. 2025-06, *Intangibles—Goodwill and Other—Internal-Use Software (ASU 2025-06)*, which revises the guidance for capitalizing costs related to internal-use software. The amendments replace the prior stage-based model with a principles-based approach, removing all references to project stages and instead focusing on the two remaining criteria for capitalization, being (i) management has authorized and committed to the funding for the software project and (ii) it is probable a project will be completed and used as intended. Until both of these criteria are met, all software development costs should be expensed as incurred. ASU 2025-06 is effective for annual and interim periods beginning after December 15, 2027, with early adoption permitted. Entities may apply the amendments prospectively, retrospectively or using a modified retrospective approach. We are currently evaluating the impact of ASU 2025-06 on our consolidated financial statements, but we do not expect the impact to be significant.

ASU 2025-03

In May 2025, the FASB issued ASU No. 2025-03, *Business Combinations and Consolidation: Determining the Accounting Acquirer in the Acquisition of a Variable Interest Entity (ASU 2025-03)*, which clarifies the requirements for identifying the accounting acquirer when a variable interest entity (**VIE**) that qualifies as a business is acquired primarily through an exchange of equity interests. This amendment does not change the existing guidance for acquisitions of VIEs that are not considered businesses. ASU 2025-03 is effective for annual and interim periods beginning after December 15, 2026, with early adoption permitted. ASU 2025-03 should be applied prospectively to all business combinations with acquisition dates occurring on or

LIBERTY GLOBAL LTD.

March 31, 2026
(unaudited)

after the date of initial application. We are currently evaluating the impact of ASU 2025-03 on our consolidated financial statements, but we do not expect the impact to be significant.

ASU 2024-03

In November 2024, the FASB issued ASU No. 2024-03, *Disaggregation of Income Statement Expenses (DISE)* (ASU 2024-03), which requires disclosure of certain categories of expenses such as the purchase of inventory, employee compensation, depreciation and intangible asset amortization that are components of existing expense captions presented on the face of the income statement. ASU 2024-03 is effective for annual periods beginning after December 15, 2026 and interim periods beginning after December 15, 2027, with early adoption permitted. ASU 2024-03 should be applied prospectively, however, retrospective application is permitted. We are currently evaluating the impact of ASU 2024-03 on our disclosures.

(3) Revenue Recognition and Related Costs

Contract Balances

The timing of our recognition of revenue may differ from the timing of invoicing our customers. We record a trade receivable when we have transferred goods or services to a customer but have not yet received payment. Our trade receivables are reported net of an allowance for doubtful accounts. Such allowance aggregated \$31.2 million and \$31.3 million at March 31, 2026 and December 31, 2025, respectively.

If we transfer goods or services to a customer but do not have an unconditional right to payment, we record a contract asset. Contract assets typically arise from the uniform recognition of introductory promotional discounts over the contract period and accrued revenue for handset sales. Our contract assets were \$11.8 million and \$11.4 million as of March 31, 2026 and December 31, 2025, respectively. The current and long-term portions of our contract asset balances are included within other current assets and other assets, net, respectively, on our condensed consolidated balance sheets.

We record deferred revenue when we receive payment prior to transferring goods or services to a customer. We primarily defer revenue for (i) installation and other upfront services and (ii) other services that are invoiced prior to when services are provided. Our deferred revenue balances were \$269.4 million and \$305.9 million as of March 31, 2026 and December 31, 2025, respectively. The decrease in deferred revenue for the three months ended March 31, 2026 is primarily due to the net effect of (a) the recognition of \$216.1 million of revenue that was included in our deferred revenue balance at December 31, 2025 and (b) the impact of additions during the period. The long-term portions of our deferred revenue balances are included within other long-term liabilities on our condensed consolidated balance sheets.

Unsatisfied Performance Obligations

A significant portion of our revenue is derived from subscription service contracts with an initial duration of less than 12 months. As such, the amount of revenue related to unsatisfied performance obligations is not necessarily indicative of future revenue to be recognized from our existing customers. Revenue from customers who are subject to contracts is generally recognized over the term of such contracts, which is typically 12 months for our residential service contracts, one to three years for our mobile service contracts and one to five years for our B2B service contracts. The average remaining contractual term for B2B non-subscription services is approximately three years. At March 31, 2026 the aggregate transaction price allocated to remaining performance obligations related to our B2B and other fixed-fee service agreements with terms greater than one year was approximately \$2.0 billion and is expected to be recognized over the respective remaining contractual terms.

(4) Acquisitions and Dispositions

Pending Acquisition

On February 18, 2026, Liberty Global entered into a sale and purchase agreement with Vodafone to acquire its 50% interest in the VodafoneZiggo JV for consideration of (i) €1.0 billion (\$1.2 billion) in cash and (ii) a 10% equity interest in a new Benelux holding company, which will hold Liberty Global's interests in VodafoneZiggo and Telenet.

At closing, the existing shareholders' agreement governing the VodafoneZiggo JV will be terminated and replaced with a new shareholders' agreement, and certain existing agreements, including service agreements, between VodafoneZiggo, Vodafone and Liberty Global will continue as amended in connection with the closing of the transaction. The transaction is expected to close in the second half of 2026, subject to regulatory approvals.

Disposition

On April 30, 2026, we completed the sale of our operations in Slovakia (**UPC Slovakia**) to O2 Slovakia s.r.o., an affiliate of e& PPF Telecom Group B.V. After considering debt and working capital adjustments, we received net cash proceeds of €94.8 million (\$111.2 million at the transaction date). In our segment presentation, UPC Slovakia is included in our "all other category."

In connection with the sale of UPC Slovakia, we have agreed to provide certain transitional services for a period of up to 42 months from the closing of the transaction. These services principally comprise network and information technology-related functions. The annual charges will depend on the actual level of services required by the purchaser, however, we do not expect these charges to be material. Liberty Global will also allow the use of the "UPC" brand for a transitional period of up to three years as part of the transaction.

Effective with the signing of the share purchase agreement on December 18, 2025, we began accounting for UPC Slovakia as held for sale. Accordingly, we ceased to depreciate or amortize the long-lived assets of UPC Slovakia. However, we have not presented UPC Slovakia as a discontinued operation as this transaction did not represent a strategic shift that will have a major effect on our financial results or operations. The carrying amounts of UPC Slovakia's held-for-sale assets and liabilities, which are included in other current assets and other accrued and current liabilities, respectively, on our condensed consolidated balance sheets, are summarized below:

(a) Represents our economic ownership based on total shares owned as a percentage of total shares outstanding as of the most recent balance sheet date or the most recent publicly-available information.

(b) Our equity method investments are originally recorded at cost and are adjusted to recognize our share of net earnings or losses of the affiliates as they occur rather than as dividend distributions are received, with our recognition of losses generally limited to the extent of our investment in, and loans and commitments to, the investee. Accordingly, the carrying values of our equity method investments may not equal their respective fair values. At March 31, 2026 and December 31, 2025, the aggregate carrying amounts of our equity method investments exceeded our proportionate share of the respective investee's net assets by \$1,012.4 million and \$1,029.2 million, respectively, related to amounts associated with the VodafoneZiggo JV Receivables, as defined below.

- (c) Amounts include certain notes receivable due from a subsidiary of the VodafoneZiggo JV to a subsidiary of Liberty Global, comprising (i) a €700.0 million note receivable (\$807.8 million and \$821.5 million equivalent at March 31, 2026 and December 31, 2025, respectively) (the **VodafoneZiggo JV Receivable I**) and (ii) a €207.9 million note receivable (\$239.9 million and \$244.0 million equivalent at March 31, 2026 and December 31, 2025, respectively) (the **VodafoneZiggo JV Receivable II** and, together with the VodafoneZiggo JV Receivable I, the **VodafoneZiggo JV Receivables**). The VodafoneZiggo JV Receivables bear interest at a rate of 5.55% and have a final maturity date of December 31, 2030. During the three months ended March 31, 2026, interest accrued on the VodafoneZiggo JV Receivables was €12.7 million (\$14.7 million), all of which has been cash settled.
- (d) Liberty Global owns a 50% noncontrolling voting interest in the AtlasEdge JV.
- (e) Liberty Global owns a 25% noncontrolling voting interest in the nexfibre JV.
- (f) Represents investments held under SMAs, which are maintained by investment managers acting as agents on our behalf. With the exception of our SMA invested in a leveraged structured note, all investments held under SMAs were sold as of the first quarter of 2025. During the first quarter of 2026, we redeemed \$36.6 million of the leveraged structured note. Subsequent to March 31, 2026, we redeemed the remaining leveraged structured note balance and received cash proceeds of \$46.3 million. The SMA balances are included in other current assets on our condensed consolidated balance sheets.
- (g) Our investment in EdgeConneX is held through two distinct limited partnerships (**LPs**), Herndon Topco and McNair Topco. The ownership percentages in EdgeConneX are 3.5% and 2.6% for Herndon TopCo and McNair TopCo, respectively. The combined investment in EdgeConneX through these LPs results in a weighted ownership percentage of 3.3%. This calculation considers the individual ownership percentages and the respective investment amounts in each LP. During the first quarter of 2026, we disposed of approximately 16% of our interest in EdgeConneX through Herndon TopCo LP. We received aggregate cash proceeds of \$73.6 million from the sale.
- (h) On March 17, 2026, we disposed of approximately one-half of our interest in ITV. We received aggregate cash proceeds of approximately £76.1 million (\$101.8 million) from the sale.
- (i) Our investment in Plume includes warrants with a fair value of \$20.6 million and \$21.1 million at March 31, 2026 and December 31, 2025, respectively.
- (j) The purchase and sale of investments are presented on a gross basis in our condensed consolidated statements of cash flows, including amounts associated with SMAs.

VMO2 JV

Pursuant to an agreement (the **U.K. JV Framework Agreement**), Liberty Global provides certain services to the VMO2 JV on a transitional or ongoing basis (collectively, the **U.K. JV Services**). The agreements underlying the U.K. JV Services expire in 2030. The U.K. JV Services provided by Liberty Global consist primarily of (i) technology and other services and (ii) capital-related expenditures for assets that will be used by, or will otherwise benefit, the VMO2 JV. Liberty Global charges both fixed and variable fees to the VMO2 JV for the U.K. JV Services provided pursuant to the U.K. JV Framework Agreement. At March 31, 2026 and December 31, 2025, \$83.8 million and \$79.3 million, respectively, was due from the VMO2 JV related to the aforementioned transactions. The amounts due from the VMO2 JV, which are periodically cash settled, are included in other current assets on our condensed consolidated balance sheets.

The following table sets forth a summary of revenue recorded from the VMO2 JV:

	Three months ended March 31,

VodafoneZiggo JV

Pursuant to an agreement (the **NL JV Framework Agreement**), Liberty Global provides certain services to the VodafoneZiggo JV (collectively, the **NL JV Services**). The NL JV Services provided by Liberty Global consist primarily of (i) technology and other services and (ii) capital-related expenditures for assets that will be used by, or will otherwise benefit, the VodafoneZiggo JV. Liberty Global charges both fixed and usage-based fees to the VodafoneZiggo JV for the NL JV Services provided pursuant to the NL JV Framework Agreement. We recorded revenue from the VodafoneZiggo JV of \$54.0 million and \$46.1 million during the three months ended March 31, 2026 and 2025, respectively, primarily related to (a) the NL JV Services and (b) the sale of CPE to the VodafoneZiggo JV at a mark-up. At March 31, 2026 and December 31, 2025, \$39.8 million and \$42.7 million, respectively, was due from the VodafoneZiggo JV related to the aforementioned transactions. The amounts due

from the VodafoneZiggo JV, which are periodically cash settled, are included in other current assets on our condensed consolidated balance sheets.

The VodafoneZiggo JV is experiencing significant competition in both its fixed-line and mobile operations. If the adverse impacts of economic, competitive, regulatory or other factors were to cause significant deterioration of the results of operations or cash flows of the VodafoneZiggo JV, we could conclude in future periods that our investment in the VodafoneZiggo JV is impaired or management of the VodafoneZiggo JV could conclude that an impairment of the VodafoneZiggo JV goodwill and, to a lesser extent, long-lived assets, is required. Any such impairment of the VodafoneZiggo JV's goodwill or our investment in the VodafoneZiggo JV would be reflected as a component of share of results of affiliates, net, in our condensed consolidated statement of operations. Our share of any such impairment charges could be significant.

The summarized results of operations of the VodafoneZiggo JV are set forth below:

	Three months ended March 31,	
	2026	2025
	in millions	
Revenue	\$ 1,148.5	\$ 1,052.0

Our investment portfolio is subject to various macroeconomic pressures and has experienced significant volatility, which affects both our non-public and publicly-traded investments. Changes in the fair values of these investments, including changes with respect to interest rates within our local jurisdictions, are likely to continue and could be significant.

(6) Derivative Instruments

In general, we enter into derivative instruments to protect against (i) increases in the interest rates on our variable-rate debt, (ii) foreign currency movements, particularly with respect to borrowings that are denominated in a currency other than the functional currency of the borrowing entity, and (iii) decreases in the market prices of certain publicly-traded securities that we own. In this regard, through our subsidiaries, we have entered into various derivative instruments to manage interest rate exposure and foreign currency exposure primarily with respect to the U.S. dollar (\$), the euro (€) and the British pound sterling (£). Generally, we only apply hedge accounting to our derivative instruments in limited circumstances. Accordingly, changes in the fair values of most of our derivative instruments are recorded in realized and unrealized gains or losses on derivative instruments, net, in our condensed consolidated statements of operations.

The following table provides details of the fair values of our derivative instrument assets and liabilities:

- (a) Our current and long-term derivative assets and current and long-term derivative liabilities are included in other current assets, other assets, net, other accrued and current liabilities and other long-term liabilities, respectively, on our condensed consolidated balance sheets.
- (b) We consider credit risk relating to our and our counterparties' nonperformance in the fair value assessment of our derivative instruments. In all cases, the adjustments take into account offsetting liability or asset positions within each of our subsidiary borrowing groups (as defined and described in note 9). The changes in the credit risk valuation adjustments associated with our cross-currency and interest rate derivative contracts resulted in net gains of \$0.4 million and \$4.2 million during the three months ended March 31, 2026 and 2025, respectively. These amounts are included in realized and unrealized gains (losses) on derivative instruments, net, in our condensed consolidated statements of operations. For further information regarding our fair value measurements, see note 7.

Counterparty Credit Risk

We are exposed to the risk that the counterparties to the derivative instruments of our subsidiary borrowing groups will default on their obligations to us. We manage these credit risks through the evaluation and monitoring of the creditworthiness of, and concentration of risk with, the respective counterparties. In this regard, credit risk associated with our derivative instruments is spread across a relatively broad counterparty base of banks and financial institutions, however notwithstanding, given the size of our derivative portfolio, the default of certain counterparties could have a significant impact on our consolidated statements of operations. Collateral is generally not posted by either party under our derivative instruments. At March 31, 2026, our exposure to counterparty credit risk included derivative assets with an aggregate fair value of \$152.2 million.

Details of our Derivative Instruments

Cross-currency Swap Contracts

We generally match the denomination of our subsidiaries' borrowings with the functional currency of the supporting operations or, when it is more cost effective, we provide for an economic hedge against foreign currency exchange rate movements by using derivative instruments to synthetically convert unmatched debt into the applicable underlying currency. At March 31, 2026, substantially all of our debt was either directly or synthetically matched to the applicable functional currencies of the underlying operations. The following table sets forth the total notional amounts and the related weighted average remaining contractual lives of our cross-currency swap contracts at March 31, 2026:

	<u>Notional amount due from counterparty</u>		<u>Notional amount due to counterparty</u>		<u>Weighted average remaining life</u>
	in millions				in years
Telenet	\$	3,266.6	€	2,899.5	2.0

Interest Rate Swap Contracts

The following table sets forth the total U.S. dollar equivalents of the notional amounts and the related weighted average remaining contractual lives of our interest rate swap contracts at March 31, 2026:

	<u>Pays fixed rate</u>		<u>Receives fixed rate</u>	
	<u>Notional amount</u>	<u>Weighted average remaining life</u>	<u>Notional amount</u>	<u>Weighted average remaining life</u>
	in millions	in years	in millions	in years
Telenet	\$ 4,166.1 (a)	3.1	\$ —	—

(a) Includes certain derivative instruments that are "forward-starting," such that the initial exchange occurs at a date subsequent to March 31, 2026. These instruments are typically entered into in order to extend existing hedges without the need to amend existing contracts.

Basis Swaps

Our basis swaps involve the exchange of attributes used to calculate our floating interest rates, including (i) the benchmark rate, (ii) the underlying currency and/or (iii) the borrowing period. We typically enter into these swaps to optimize our interest rate profile based on our current evaluations of yield curves, our risk management policies and other factors. The following table sets forth the total U.S. dollar equivalents of the notional amounts and related weighted average remaining contractual lives of our basis swap contracts at March 31, 2026:

	<u>Notional amount due from counterparty</u>	<u>Weighted average remaining life</u>
	in millions	in years
Telenet	\$ 3,576.0	0.3
VM Ireland	\$ 1,038.6	0.3

Interest Rate Caps, Floors and Collars

From time to time, we enter into interest rate cap, floor and collar agreements. Purchased interest rate caps and collars lock in a maximum interest rate if variable rates rise, but also allow our company to benefit, to a limited extent in the case of collars,

LIBERTY GLOBAL LTD.
Notes to Condensed Consolidated Financial Statements — (Continued)

from declines in market rates. Purchased interest rate floors protect us from interest rates falling below a certain level, generally to match a floating rate floor on a debt instrument. At March 31, 2026, we had no interest rate collar agreements, and the total U.S. dollar equivalents of the notional amounts of our purchased interest rate caps and floors were \$1.0 billion and \$1.3 billion, respectively.

Impact of Derivative Instruments on Borrowing Costs

The impact of the derivative instruments that mitigate our foreign currency and interest rate risk, as described above, on our borrowing costs is as follows:

	Decrease to borrowing costs at March 31, 2026 (a)
VM Ireland	(1.58)%
Telenet	(1.49)%
Total decrease to borrowing costs	(1.50)%

(a) Represents the effect of derivative instruments in effect at March 31, 2026 and does not include forward-starting derivative instruments.

Foreign Currency Forwards and Options

Certain of our subsidiaries enter into foreign currency forward and option contracts with respect to non-functional currency exposure. As of March 31, 2026, the total U.S. dollar equivalent of the notional amounts of our foreign currency forward and option contracts was \$189.2 million.

(7) Fair Value Measurements

We use the fair value method to account for (i) certain of our investments and (ii) our derivative instruments. The reported fair values of these investments and derivative instruments as of March 31, 2026 are unlikely to represent the value that will be paid or received upon the ultimate settlement or disposition of these assets and liabilities.

GAAP provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. Level 1 inputs are quoted market prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. Level 2 inputs are inputs other than quoted market prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs for the asset or liability. We record transfers of assets or liabilities into or out of Levels 1, 2 or 3 at the beginning of the quarter during which the transfer occurred.

We use a Monte Carlo based approach to incorporate a credit risk valuation adjustment in our fair value measurements to estimate the impact of both our own nonperformance risk and the nonperformance risk of our counterparties. Our credit risk valuation adjustments with respect to our cross-currency and interest rate swap contracts are quantified and further explained in note 6.

Fair value measurements are also used for nonrecurring valuations performed in connection with acquisition accounting and impairment assessments. These nonrecurring valuations include the valuation of reporting units, customer relationships and other intangible assets (including franchise and licensing rights), property and equipment and the implied value of goodwill. The valuation of reporting units is based on an income-based approach (discounted cash flows) using assumptions in our long-range business plans or a market-based approach (current multiples of comparable public companies and guideline transactions) and, in some cases, a combination of an income-based approach and a market-based approach. With the exception of certain inputs for our weighted average cost of capital and discount rate calculations that are derived from pricing services, the inputs used in our discounted cash flow analyses, such as forecasts of future cash flows, including inputs with respect to revenue

LIBERTY GLOBAL LTD.
Notes to Condensed Consolidated Financial Statements — (Continued)
March 31, 2026
(unaudited)

growth and Adjusted EBITDA margin (as defined in note 15), and terminal growth rates, are based on our assumptions. The valuation of customer relationships is primarily based on an excess earnings methodology, which is a form of a discounted cash flow analysis. The excess earnings methodology requires us to estimate the specific cash flows expected from the customer relationship, considering such factors as estimated customer life, the revenue expected to be generated over the life of the customer relationship, contributory asset charges and other factors. Tangible assets are typically valued using a replacement or reproduction cost approach, considering factors such as current prices of the same or similar equipment, the age of the equipment and economic obsolescence. The implied value of goodwill is determined by allocating the fair value of a reporting unit to all of the assets and liabilities of that unit as if the reporting unit had been acquired in a business combination, with the residual amount allocated to goodwill. Most of our nonrecurring valuations use significant unobservable inputs and therefore fall under Level 3 of the fair value hierarchy. During the three months ended March 31, 2026 and 2025, we did not perform any significant nonrecurring fair value measurements.

For additional information concerning our fair value measurements, see note 9 to the consolidated financial statements included in our 2025 10-K.

(8) Long-lived Assets

Property and Equipment, Net

The details of our property and equipment and the related accumulated depreciation are set forth below:

	March 31, 2026	December 31, 2025
	in millions	
Distribution systems	\$ 7,305.0	\$ 7,189.1

Accumulated depreciation	(6,056.7)	(5,930.2)
Total property and equipment, net	<u>\$ 5,320.5</u>	<u>\$ 5,270.3</u>

During the three months ended March 31, 2026 and 2025, we recorded non-cash increases to our property and equipment related to vendor financing arrangements of \$30.1 million and \$20.6 million, respectively, which exclude related value-added taxes (VAT) of \$5.7 million and \$3.2 million, respectively, that were also financed under these arrangements.

Goodwill

Changes in the carrying amount of our goodwill during the three months ended March 31, 2026 are set forth below:

	January 1, 2026	Foreign currency translation adjustments and other	March 31, 2026
	in millions		
Telenet	\$ 2,516.5	\$ (41.9)	\$ 2,474.6
Wyre	457.0	(7.6)	449.4
VM Ireland	284.4	(4.7)	279.7
Other	244.9	(4.1)	240.8
Total	<u>\$ 3,502.8</u>	<u>\$ (58.3)</u>	<u>\$ 3,444.5</u>

If, among other factors, the adverse impacts of economic, competitive, regulatory or other factors were to cause our results of operations or cash flows to be worse than anticipated, we could conclude in future periods that impairment charges are required in order to reduce the carrying values of our goodwill and, to a lesser extent, other long-lived assets. Any such impairment charges could be significant.

(a) Represents the weighted average interest rate in effect at March 31, 2026 for all borrowings outstanding pursuant to each debt instrument, including any applicable margin. The interest rates presented represent stated rates and do not include the impact of derivative instruments, deferred financing costs, original issue premiums or discounts and commitment fees, all of which affect our overall cost of borrowing. Including the effects of derivative instruments, original issue premiums or discounts and commitment fees, but excluding the impact of deferred financing costs and certain other obligations that we assumed in connection with certain acquisitions, the weighted average interest rate on our aggregate variable- and fixed-rate indebtedness was 3.78% at March 31, 2026. The weighted average interest rate calculation includes principal amounts outstanding associated with all of our secured and unsecured borrowings. For information regarding our derivative instruments, see note 6.

(b) Unused borrowing capacity represents the maximum availability under the applicable facility at March 31, 2026 without regard to covenant compliance calculations or other conditions precedent to borrowing. The following table provides our borrowing availability and amounts available to loan or distribute in accordance with the terms of the respective subsidiary facilities (i) at March 31, 2026 and (ii) upon completion of the relevant March 31, 2026 compliance reporting requirements. These amounts do not consider any actual or potential changes to our borrowing levels or any amounts loaned or distributed subsequent to March 31, 2026, or the full impact of additional amounts that may be available to borrow, loan or distribute under certain defined baskets within each respective facility.

- (c) At March 31, 2026, unused borrowing capacity under the Telenet Credit Facility amounted to €625.0 million (\$721.3 million) comprising (i) €580.0 million (\$669.3 million) under Telenet Revolving Facility I, (ii) €25.0 million (\$28.9 million) under the Telenet Overdraft Facility and (iii) €20.0 million (\$23.1 million) under the Telenet Revolving Facility, each of which were undrawn at March 31, 2026. In January 2026, €90.0 million (\$103.9 million) of borrowings under Telenet Revolving Facility I were repaid, restoring total available capacity under Telenet Revolving Facility I to €580.0 million. In February 2026, €550.0 million (\$634.7 million) of Telenet Revolving Facility I was amended to extend the maturity date from May 2029 to May 2032.
- (d) Unused borrowing capacity under the VM Ireland Credit Facility relates to €100.0 million (\$115.4 million) under the VM Ireland Revolving Facility, which was undrawn at March 31, 2026.
- (e) Represents amounts owed to various creditors pursuant to interest-bearing vendor financing arrangements that are used to finance certain of our property and equipment additions and operating expenses. These arrangements extend our repayment terms beyond a vendor's original due dates (e.g., extension beyond a vendor's customary payment terms, which are generally 90 days or less) and as such are classified outside of accounts payable as debt on our condensed consolidated balance sheets. These obligations are generally due within one year and include VAT that was also financed under these arrangements. For purposes of our condensed consolidated statements of cash flows, operating-related expenses financed by an intermediary are treated as constructive operating cash outflows and constructive financing cash inflows when the intermediary settles the liability with the vendor as there is no actual cash outflow until we pay the financing intermediary. During the three months ended March 31, 2026 and 2025, the constructive cash outflow included in cash flows from operating activities and the corresponding constructive cash inflow included in cash flows from financing activities related to these operating expenses were \$68.4 million and \$71.2 million, respectively. Repayments of vendor financing obligations at the time we pay the financing intermediary are included in repayments and repurchases of debt and finance lease obligations in our condensed consolidated statements of cash flows.
- (f) At March 31, 2026 and December 31, 2025, amounts include (i) \$225.4 million and \$228.4 million, respectively, of debt collateralized by certain trade receivables of Telenet and (ii) \$402.9 million and \$423.4 million, respectively, of liabilities related to Telenet's acquisition of mobile spectrum licenses. Telenet will make annual payments for the license fees over the terms of the respective licenses. In addition, amounts include (a) \$57.7 million and \$58.7 million, respectively, of debt related to an advance against the assignment of certain future sponsorship receivables of Formula E and (b) \$47.8 million and \$19.8 million, respectively, of debt drawn on a capital expenditure term loan facility at Egg Power AssetCo Limited, a subsidiary of Liberty Global (the **Egg Power Capex Facility**).
- (g) As of March 31, 2026 and December 31, 2025, our debt had an estimated fair value of \$8.3 billion and \$8.6 billion, respectively. The estimated fair values of our debt instruments are generally determined using the average of applicable bid and ask prices (mostly Level 1 of the fair value hierarchy). For additional information regarding fair value hierarchies, see note 7.

General Information

At March 31, 2026, most of our outstanding debt had been incurred by one of our two subsidiary “borrowing groups.” References to these borrowing groups, which comprise Telenet and VM Ireland, include their respective restricted parent and subsidiary entities. Below we provide summary descriptions of certain financing transactions completed during 2026. For information regarding the general terms and conditions of our debt and capitalized terms not defined herein, see note 11 to the consolidated financial statements included in our 2025 10-K.

Financing Transactions

In April 2026, Telenet purchased and extinguished \$28.4 million of the \$1.0 billion principal amount of Telenet 5.50% Senior Notes due 2028.

Maturities of Debt

Maturities of our debt as of March 31, 2026 are presented below for the named entity and its subsidiaries, unless otherwise noted, and represent U.S. dollar equivalents based on March 31, 2026 exchange rates.

(a) Operating lease payments exclude \$119.0 million of estimated future payments for lease commitments not yet commenced at Telenet, the majority of which are not anticipated to be due until after 2028. These payments relate to the lease back of build-to-suit sites on certain passive infrastructure and tower assets sold to DigitalBridge Investments LLC in 2022. Telenet will act as an agent over the construction of future towers on the build-to-suit sites.

(11) Income Taxes

Our effective tax rate for the three months ended March 31, 2026 was 32.9% (income tax expense of \$175.4 million), which differs from the Bermuda statutory rate of 15.0% (expected income tax expense of \$80.0 million). This difference is primarily due to the negative impacts of (i) the derecognition of a tax litigation-related receivable in the U.S. of \$133.3 million (25.0%) and (ii) statutory rates in certain jurisdictions in which we operate that are different than the Bermuda statutory rate, including \$42.9 million (8.0%) in the U.K. The negative impacts of these items were partially offset by the positive impact of non-deductible net foreign currency exchange gains in the U.K. of \$121.6 million (22.8%).

Our effective tax rate for the three months ended March 31, 2025 was 5.0% (income tax benefit of \$70.0 million), which differs from the Bermuda statutory rate of 15.0% (expected income tax benefit of \$209.0 million). This difference is primarily due to the negative impacts of (i) non-deductible net foreign exchange losses in the U.K. of \$308.2 million (22.1%) and (ii) non-deductible net losses from certain investments in the U.K. and the Netherlands of \$43.3 million (3.2%). The negative impacts of these items were partially offset by the positive impacts of (a) statutory rates in certain jurisdictions in which we operate that are different than the Bermuda statutory rate, including \$132.6 million (9.5%) in the U.K., and (b) the release of valuation allowances in Luxembourg of \$86.0 million (6.2%).

On July 4, 2025, the One Big Beautiful Bill Act (the **OBBBA**) was enacted in the U.S., introducing various changes to federal tax law. We have evaluated the provisions of the OBBBA and determined that they did not have a material impact on our consolidated financial statements through March 31, 2026, nor do we currently anticipate that the OBBBA will have a material impact on our consolidated financial statements in the future.

As of March 31, 2026, our unrecognized tax benefits were \$140.4 million, of which \$88.3 million would have a favorable impact on our effective income tax rate if ultimately recognized, after considering amounts that we would expect to be offset by valuation allowances and other factors.

We and our subsidiaries file consolidated and standalone income tax returns in various jurisdictions. In the normal course of business, our income tax filings are subject to review by various taxing authorities. In connection with such reviews, disputes could arise with the taxing authorities over the interpretation or application of certain income tax rules related to our business in that tax jurisdiction. Such disputes may result in future tax and interest and penalty assessments by these taxing authorities. The ultimate resolution of tax contingencies will take place upon the earlier of (i) the settlement date with the applicable tax authorities in either cash or agreement of income tax positions or (ii) the date when the tax authorities are statutorily prohibited from adjusting the company's tax computations.

In general, tax returns filed by our company or our subsidiaries for years prior to 2019 are no longer subject to examination by tax authorities. Certain of our subsidiaries are currently involved in income tax examinations in various jurisdictions in which we operate, including Belgium, Luxembourg, Slovakia and the U.S. While we do not expect adjustments from the foregoing examinations to have a material impact on our consolidated financial position, results of operations or cash flows, no assurance can be given that this will be the case given the amounts involved and the complex nature of the related issues.

On October 7, 2022, the U.S. Department of Justice (**DOJ**) filed a suit against Liberty Global, Inc. (**LGI**), a wholly-owned U.S. subsidiary of Liberty Global, in the U.S. District Court of Colorado (the **District Court**) for unpaid federal income taxes and penalties for the 2018 tax year of approximately \$284 million. This action by the DOJ is related to the November 2020 complaint filed by LGI in the District Court seeking a refund of approximately \$110 million of taxes, penalties and interest associated with the application of certain temporary Treasury regulations issued in June 2019. In October 2023, the District Court entered judgment against LGI with respect to the refund claim and we appealed this decision to the U.S. Court of Appeals for the Tenth Circuit (the **Court of Appeals**) in December 2023. In April 2026, the Court of Appeals upheld the District Court's decision with respect to the refund claim. As a result of the adverse appellate ruling, we concluded that the realization of the refund is no longer probable; therefore, in the first quarter of 2026, we derecognized the associated receivable. As it pertains to the suit filed by the DOJ in 2022, we will continue our defense of certain matters not specifically addressed in the decision by the Court of Appeals.

(12) Share-based Compensation

Our share-based compensation expense primarily relates to the share-based incentive awards issued by Liberty Global to its employees and employees of its subsidiaries. A summary of our aggregate share-based compensation expense is set forth below:

The following table provides the aggregate number of options, share appreciation rights (**SARs**) and performance-based share appreciation rights (**PSARs**) with respect to awards issued by Liberty Global that were (i) outstanding and (ii) exercisable as of March 31, 2026:

	Class A		Class C	
	Gross number of shares underlying option, SAR and PSAR awards (a)	Weighted average exercise or base price	Gross number of shares underlying option, SAR and PSAR awards (a)	Weighted average exercise or base price
Held by Liberty Global employees:				
Outstanding	36,997,900	\$ 13.99	84,544,355	\$ 14.09
Exercisable	32,046,378	\$ 14.62	76,171,008	\$ 14.48
Held by former Liberty Global employees (b):				
Outstanding	2,643,917	\$ 15.65	5,185,261	\$ 15.66
Exercisable	2,495,261	\$ 15.95	4,890,850	\$ 15.92

- (a) Amounts represent the gross number of shares associated with option, SAR and PSAR awards issued to our current and former employees and our directors. Our company settles SARs and PSARs on a net basis when exercised by the award holder, whereby the number of shares issued represents the excess value of the award based on the market price of the respective Liberty Global shares at the time of exercise relative to the award's exercise price. In addition, the number of shares issued is further reduced by the amount of the employee's required income tax withholding.

- (b) Amounts represent certain share-based awards that continue to be held by former employees of Liberty Global subsequent to certain spin-off or disposal transactions, or as otherwise permitted under applicable Liberty Global equity plan documents. Although future exercises of these awards by former employees will not result in the recognition of share-based compensation expense, such exercises will increase the number of our outstanding common shares.

The following table provides the aggregate number of restricted share units (RSUs) and performance-based restricted share units (PSUs) that were outstanding as of March 31, 2026. The number of shares to be issued on the vesting date of these awards will be reduced by the amount of the employee's required income tax withholding.

	<u>Class A</u>	<u>Class C</u>
Held by Liberty Global employees:		
RSUs	6,653,523	8,161,387
PSUs	6,882,468	9,352,330
Held by former Liberty Global employees (a):		
RSUs	51,147	96,237
PSUs	1,812	1,812

(a) Amounts represent certain share-based awards that continue to be held by former employees of Liberty Global subsequent to certain spin-off or disposal transactions, or as otherwise permitted under applicable Liberty Global equity plan documents. The future vesting of these RSUs and PSUs will increase the number of our outstanding common shares.

2026 PSUs

In March 2026, the compensation committee of our board of directors approved the grant of PSUs to executive officers and certain employees (the **2026 PSUs**). The performance metric for the 2026 PSUs is the appreciation of Liberty Global's average share price during the performance period commencing March 26, 2026 and ending December 31, 2028. The payout is determined based on growth tied to certain pre-established price levels, as adjusted by the committee for (i) corporate transactions, including acquisitions, dispositions, spin-offs and mergers, and (ii) force majeure type events such as natural disasters, acts of war or terrorism or other unanticipated events impacting the business that are outside of our control. Share price appreciation of 0% to 80% will generally result in award recipients earning 0% to 200% of their target 2026 PSUs. In addition, 50% of the 2026 PSUs award payout may be "banked" if Liberty Global's average share price achieves and maintains specific target levels ranging from 30% to 50% during the performance period, subject to a cap of 75% of the target 2026 PSUs. The earned 2026 PSUs will fully vest on or around February 15, 2029.

(13) Earnings (Loss) per Share

Basic earnings or loss per share (**EPS**) is computed by dividing net earnings or loss attributable to Liberty Global shareholders by the weighted average number of shares outstanding for the period. Diluted EPS, as calculated under the treasury stock method, presents the dilutive effect, if any, on a per share basis of potential shares from share-based incentive awards as if they had been exercised, vested or converted at the beginning of the periods presented. For additional information regarding our share-based incentive awards, see note 12.

The details of our net earnings (loss) attributable to Liberty Global shareholders are set forth below:

	Three months ended March 31,	
	2026	2025
	in millions, except share amounts	
Net earnings (loss)	\$ 358.2	\$ (1,323.3)
Net earnings attributable to noncontrolling interests	(20.4)	(14.0)
Net earnings (loss) attributable to Liberty Global shareholders	<u>\$ 337.8</u>	<u>\$ (1,337.3)</u>
Weighted average common shares outstanding (basic EPS computation)	334,996,069	348,407,676
Incremental shares (a)	16,129,446	—
Weighted average common shares outstanding (diluted EPS computation)	<u>351,125,515</u>	<u>348,407,676</u>
Excluded potentially dilutive employee share-based incentive awards (b)	<u>92,295,756</u>	<u>163,331,498</u>

- (a) We use the treasury stock method to calculate the incremental shares attributable to the assumed exercise or release of the outstanding share-based incentive awards upon vesting. Certain of our share incentive plans include performance and/or other features that result in the associated shares being contingently issuable. For purposes of applying the treasury stock method, the dilutive effect of these awards is calculated based on the number of the shares that would be issuable as if the end of the reporting period was the end of the contingency period.
- (b) Amounts represent potentially dilutive shares that have been excluded from the computation of diluted earnings (loss) attributable to Liberty Global shareholders because their effect would have been anti-dilutive under the treasury stock method. Additional shares may be issuable in future periods based on the actual performance of certain PSUs, because such awards had not yet met the applicable performance criteria during the reporting period.

(14) Commitments and Contingencies

Commitments

In the normal course of business, we enter into agreements that commit our company to make cash payments in future periods with respect to purchases of equipment and services, programming contracts, network and connectivity commitments and other items. The following table sets forth the U.S. dollar equivalents of such commitments as of March 31, 2026. The commitments included in this table do not reflect any liabilities that are included on our March 31, 2026 condensed consolidated balance sheet.

	Payments due during:							Total
	Remainder of 2026	2027	2028	2029	2030	2031	Thereafter	
	in millions							
Purchase commitments	\$ 604.6	\$ 566.5	\$ 536.4	\$ 111.4	\$ 23.2	\$ 2.7	\$ 16.3	\$ 1,861.1
Programming commitments	116.6	94.9	62.4	50.4	35.0	—	—	359.3
Network and connectivity commitments	51.4	37.9	53.4	65.0	65.8	0.1	0.1	273.7
Other commitments	153.9	83.1	84.5	49.0	49.4	2.1	1.6	423.6
Total	\$ 926.5	\$ 782.4	\$ 736.7	\$ 275.8	\$ 173.4	\$ 4.9	\$ 18.0	\$ 2,917.7

Purchase commitments include unconditional and legally binding obligations related to certain service-related commitments, including software development, information technology and maintenance services.

Programming commitments consist of obligations associated with certain of our programming, studio output and sports rights contracts that are enforceable and legally binding on us as we have agreed to pay minimum fees without regard to (i) the actual number of subscribers to the programming services, (ii) whether we terminate service to a portion of our subscribers or dispose of a portion of our distribution systems or (iii) whether we discontinue our premium sports services. Programming commitments do not include increases in future periods associated with contractual inflation or other price adjustments that are not fixed. Accordingly, the amounts reflected in the above table with respect to these contracts are significantly less than the amounts we expect to pay in these periods under these contracts. Historically, payments to programming vendors have represented a significant portion of our operating costs, and we expect this will continue to be the case in future periods. In this regard, our total programming and copyright costs aggregated \$105.4 million and \$159.0 million during the three months ended March 31, 2026 and 2025, respectively.

Network and connectivity commitments include certain equipment and service-related commitments.

Other commitments include (i) race management commitments associated with Formula E and (ii) our share of the funding commitment associated with the nexfibre JV.

In addition to the commitments set forth in the table above, we have significant commitments under (i) derivative instruments and (ii) defined benefit plans and similar agreements, pursuant to which we expect to make payments in future periods. For information regarding our derivative instruments, including the net cash paid or received in connection with these instruments, see note 6.

We also have commitments pursuant to agreements with, and obligations imposed by, franchise authorities and municipalities, which may include obligations in certain markets to move aerial cable to underground ducts or to upgrade, rebuild or extend portions of our broadband communication systems. Such amounts are not included in the above table because they are not fixed or determinable.

Furthermore, in connection with a future sale of our interest in, or an initial public offering of, Formula E, we have agreed to pay a third party a portion of our economic gain. We estimate that this contingent obligation is not currently significant.

Guarantees and Other Credit Enhancements

In the ordinary course of business, we may provide (i) indemnifications to our lenders, our vendors and certain other parties and (ii) performance and/or financial guarantees to local municipalities, our customers and vendors. Historically, these arrangements have not resulted in our company making any material payments, and we do not believe that they will result in material payments in the future.

Legal and Regulatory Proceedings and Other Contingencies

Interkabel Acquisition. On November 26, 2007, Telenet and four associations of municipalities in Belgium, which we refer to as the pure intercommunales or the “**PICs**,” announced a non-binding agreement-in-principle to transfer the analog and digital television activities of the PICs, including all existing subscribers, to Telenet. Subsequently, Telenet and the PICs entered into a binding agreement (the **2008 PICs Agreement**), which closed effective October 1, 2008. Beginning in December 2007, Proximus NV/SA (**Proximus**), the incumbent telecommunications operator in Belgium, instituted several proceedings seeking to block implementation of these agreements. Proximus lodged summary proceedings with the President of the Court of First Instance of Antwerp to obtain a provisional injunction preventing the PICs from effecting the agreement-in-principle and initiated a civil procedure on the merits claiming the annulment of the agreement-in-principle. In March 2008, the President of the Court of First Instance of Antwerp ruled in favor of Proximus in the summary proceedings, which ruling was overturned by the Court of Appeal of Antwerp in June 2008. Proximus brought this appeal judgment before the Belgian Supreme Court, which confirmed the appeal judgment in September 2010. On April 6, 2009, the Court of First Instance of Antwerp ruled in favor of the PICs and Telenet in the civil procedure on the merits, dismissing Proximus’ request for the rescission of the agreement-in-principle and the 2008 PICs Agreement. On June 12, 2009, Proximus appealed this judgment to the Court of Appeal of Antwerp. In this appeal, Proximus also sought compensation for damages. While these proceedings were suspended indefinitely, other proceedings were initiated, which resulted in a ruling by the Belgian Council of State in May 2014 annulling (i) the decision of the PICs not to organize a public market consultation and (ii) the decision from the PICs’ board of directors to approve the 2008 PICs Agreement. In December 2015, Proximus resumed the civil proceedings pending with the Court of Appeal of Antwerp seeking to have the 2008 PICs Agreement annulled and claiming damages of €1.4 billion (\$1.6 billion). On December 18, 2017, the Court of Appeal of Antwerp rejected Proximus’ claim in its entirety. On June 28, 2019, Proximus brought this appeal judgment before the Belgian Supreme Court. On January 22, 2021, the Belgian Supreme Court partially annulled the judgment of the Court of Appeal of Antwerp. The case was referred to the Court of Appeal of Brussels and is currently pending with this Court which will need to make a new decision on the matter within the boundaries of the annulment by the Belgian Supreme Court.

No assurance can be given as to the outcome of these or other proceedings. However, an unfavorable outcome of existing or future proceedings could potentially lead to the annulment of the 2008 PICs Agreement. We do not expect the ultimate resolution of this matter to have a material impact on our results of operations, cash flows or financial position. No amounts have been accrued by us with respect to this matter as the likelihood of loss is not considered to be probable.

Telekom Deutschland Litigation. On December 28, 2012, Unitymedia filed a lawsuit against Telekom Deutschland GmbH (**Telekom Deutschland**) in which Unitymedia asserted that it pays excessive prices for the co-use of Telekom Deutschland’s cable ducts in Unitymedia’s footprint. The Federal Network Agency approved rates for the co-use of certain ducts of Telekom Deutschland in March 2011. Based in part on these approved rates, Unitymedia sought a reduction of the annual lease fees by approximately five-sixths. In addition, Unitymedia sought the return of similarly calculated overpayments from 2009 through the ultimate settlement date, plus accrued interest. In October 2016, the first instance court dismissed this action, and in March 2018, the court of appeal dismissed Unitymedia’s appeal of the first instance court’s decision. Unitymedia has since successfully appealed the case to the Federal Court of Justice, and proceedings continue before the German courts. The resolution of this matter may take several years and no assurance can be given that Unitymedia’s claims will be successful. In connection with our sale of our former operations in Germany, Romania, Hungary and the Czech Republic to Vodafone (the **Vodafone Disposal Group**) in 2019, we will only share in 50% of any amounts recovered, plus 50% of the net present value of certain cost savings in future periods that are attributable to the favorable resolution of this matter, less 50% of associated legal or other third-party fees paid post-completion of the sale of the Vodafone Disposal Group. Any amount we may recover related to this matter will not be reflected in our consolidated financial statements until such time as the final disposition of this matter has been reached.

Other Contingency Matters. In connection with the dispositions of certain of our operations, we provided tax indemnities to the counterparties for certain tax liabilities that could arise from the period we owned the respective operations, the amounts of which could be significant, subject to certain thresholds. No amounts have been accrued by our company related to unasserted claims for indemnification, as the likelihood of any loss is not considered to be probable. Further, Liberty Global may be entitled to certain amounts that our disposed operations may recover from taxing authorities. Any such amounts will not be reflected in our consolidated financial statements until such time as the final disposition of such matters has been reached.

Other Regulatory Matters. Broadband internet, video distribution, fixed-line telephony, mobile and content businesses are regulated in each of the countries in which we or our affiliates operate. The scope of regulation varies from country to country, although in some significant respects regulation in European markets is harmonized under the regulatory structure of the European Union (E.U.), and largely similar rules apply in the U.K. Adverse regulatory developments could subject our businesses to a number of risks. Regulation, including conditions imposed on us by competition or other authorities as a requirement to close acquisitions or dispositions, could limit growth, revenue and the number and types of services offered and could lead to increased operating costs and property and equipment additions. Regulation may also restrict our operations and subject them to further competitive pressure, including pricing restrictions, interconnect and other access obligations, and restrictions or controls on content, including content provided by third parties. Failure to comply with current or future regulation could expose our businesses to various penalties.

In addition to the foregoing items, we have contingent liabilities related to matters arising in the ordinary course of business, including (i) legal proceedings, (ii) issues involving VAT and wage, property, withholding and other tax issues and (iii) disputes over interconnection, programming, copyright and channel carriage fees. While we generally expect that the amounts required to satisfy these contingencies will not materially differ from any estimated amounts we have accrued, no assurance can be given that the resolution of one or more of these contingencies will not result in a material impact on our results of operations, cash flows or financial position in any given period. Due, in general, to the complexity of the issues involved and, in certain cases, the lack of a clear basis for predicting outcomes, we cannot provide a meaningful range of potential losses or cash outflows that might result from any unfavorable outcomes.

(15) Segment Reporting

Our chief executive officer, whom we have determined to be our Chief Operating Decision Maker (CODM), assesses the performance of our business and allocates resources on a segment basis. We generally identify our reportable segments as (i) those consolidated subsidiaries that represent 10% or more of our total reportable segment revenue or proportionate Adjusted EBITDA (as defined below) or (ii) those equity method affiliates where revenue or our share of Adjusted EBITDA represents 10% or more of our total reportable segment revenue or proportionate Adjusted EBITDA, respectively. In certain cases, we may elect to include an operating segment in our segment disclosure that does not meet the above-described criteria for a reportable segment. Adjusted EBITDA is the primary measure used by our CODM to evaluate segment operating performance and make decisions about allocating resources to our operating segments. The CODM uses Adjusted EBITDA to evaluate income generated from our segment assets in deciding whether to reinvest profits into other areas of our business, such as for acquisitions or investments. Adjusted EBITDA is also used to monitor budget versus actual results, which is used in assessing the performance of segments in comparison with one another and in establishing management's compensation. The significant accounting policies of our segments are the same as those described in note 3 to the consolidated financial statements included in our 2025 10-K. In addition, our CODM reviews non-financial measures such as customer growth, as appropriate, but does not review any measure of total assets.

As we use the term, "**Adjusted EBITDA**" is defined as net earnings (loss) before net income tax benefit (expense), other non-operating income or expenses, net share of results of affiliates, net gains (losses) on debt extinguishment, net realized and unrealized gains (losses) due to changes in fair values of certain investments, net foreign currency transaction gains (losses), net gains (losses) on derivative instruments, net interest expense, depreciation and amortization, share-based compensation, provisions and provision releases related to significant litigation and impairment, restructuring and other operating items. Other operating items include (i) gains and losses on the disposition of long-lived assets, (ii) third-party costs directly associated with successful and unsuccessful acquisitions and dispositions, including legal, advisory and due diligence fees, as applicable, and (iii) other acquisition-related items, such as gains and losses on the settlement of contingent consideration. Our internal decision makers believe Adjusted EBITDA is a meaningful measure because it represents a transparent view of our recurring operating performance that is unaffected by our capital structure and allows management to (a) readily view operating trends, (b) perform

analytical comparisons and benchmarking between segments and (c) identify strategies to improve operating performance in the different countries in which we operate. A reconciliation of total reportable segment Adjusted EBITDA to earnings (loss) before income taxes is presented below.

As of March 31, 2026, our reportable segments are as follows:

Consolidated:

- Telenet
- Wyre
- VM Ireland

Nonconsolidated:

- VMO2 JV
- VodafoneZiggo JV

During the first quarter of 2026, we revised our segment presentation to separately present Wyre as a reportable segment. Prior to this change, Wyre was included within the Telenet reportable segment, as previously defined. This change reflects the manner in which our CODM now evaluates the financial performance of our operations in Belgium. Segment information for prior periods has been revised to reflect this change.

Telenet, VM Ireland, the VMO2 JV and the VodafoneZiggo JV derive their revenue primarily from residential and B2B communications services, including broadband internet, video, fixed-line telephony and mobile services. Wyre derives revenue primarily by providing access to its network on a wholesale basis.

Our “all other category” includes the following activities that do not meet the reportable segment quantitative thresholds:

- Certain of our investments in technology, media, sports and infrastructure companies, including our investment in Formula E, that we view as scalable businesses, which derive their revenue from providing various goods, services and content to customers;
- Our technology and services activities that generate revenue through (i) sales of CPE to our reportable segments and certain third parties and (ii) providing certain centralized network operations and technology solutions;
- Our operational and finance services platform (Liberty Blume) that generates revenue by providing services to various third parties and affiliates; and
- Costs associated with our other corporate activities, including human resources, marketing, legal, finance and other administrative functions.

Our centrally-managed technology and innovation function (our **T&I Function**) provides, and allocates charges for, certain products and services to our reportable segments (the **Tech Framework**). These products and services include CPE hardware and related essential software, maintenance, hosting and other services. Our reportable segments capitalize the combined cost of the CPE hardware and a portion of the essential software as property and equipment additions and the corresponding amounts charged by our T&I Function are reflected as revenue when earned.

Performance Measures of our Reportable Segments

The amounts presented in the tables below represent 100% of each of our consolidated and nonconsolidated reportable segment’s revenue, expenses and Adjusted EBITDA, despite only holding a 50% noncontrolling interest in both the VMO2 JV and the VodafoneZiggo JV. We account for our 50% interests in both the VMO2 JV and the VodafoneZiggo JV under the equity method; accordingly, our share of their operating results is included in share of results of affiliates, net in our condensed consolidated statements of operations. Noncontrolling interests, primarily associated with Wyre and Formula E, are reflected in net earnings or loss attributable to noncontrolling interests in our condensed consolidated statements of operations.

Revenue by Major Category

Our revenue by major category is set forth below:

	Three months ended March 31,	
	2026	2025
	in millions	
Residential revenue:		
Residential fixed revenue (a):		
Subscription revenue (b):		
Broadband internet	\$ 248.4	\$ 218.4
Video	147.3	144.1
Fixed-line telephony	44.9	44.3
Total subscription revenue	440.6	406.8
Non-subscription revenue	8.1	5.1
Total residential fixed revenue	448.7	411.9
Residential mobile revenue (c):		
Subscription revenue (b)	128.5	115.7
Non-subscription revenue	43.0	36.2
Total residential mobile revenue	171.5	151.9
Total residential revenue	620.2	563.8
B2B revenue (d):		
Subscription revenue	113.9	103.8
Non-subscription revenue	118.9	103.2
Total B2B revenue	232.8	207.0
Other revenue (e)		
	421.6	400.4
Total	\$ 1,274.6	\$ 1,171.2

- (a) Residential fixed subscription revenue includes amounts received from subscribers for ongoing services and the recognition of deferred installation revenue over the associated contract period. Residential fixed non-subscription revenue includes, among other items, channel carriage fees, late fees and revenue from the sale of equipment.
- (b) Residential subscription revenue from subscribers who purchase bundled services at a discounted rate is generally allocated proportionally to each service based on the standalone price for each individual service. As a result, changes in the standalone pricing of our fixed and mobile products or the composition of bundles can contribute to changes in our product revenue categories from period to period.
- (c) Residential mobile subscription revenue includes amounts received from subscribers for ongoing services. Residential mobile non-subscription revenue includes, among other items, interconnect revenue and revenue from sales of mobile handsets and other devices.
- (d) B2B subscription revenue represents revenue from (i) services provided to small or home office (**SOHO**) subscribers and (ii) mobile services provided to medium and large enterprises. SOHO subscribers pay a premium price to receive expanded service levels along with broadband internet, video, fixed-line telephony or mobile services that are the same or similar to the mass marketed products offered to our residential subscribers. B2B non-subscription revenue includes (a) revenue from business broadband internet, video, fixed-line telephony and data services offered to medium and large

enterprises and, fixed-line and mobile services on a wholesale basis, to other operators and (b) revenue from long-term leases of portions of our network.

- (e) Other revenue includes, among other items, (i) revenue earned from the U.K. JV Services, the Sunrise Services and the NL JV Services, (ii) revenue at Formula E, (iii) revenue earned from the sales of CPE to the VMO2 JV and the VodafoneZiggo JV and (iv) broadcasting revenue at Telenet and VM Ireland.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis, which should be read in conjunction with our consolidated financial statements and the discussion and analysis included in our 2025 10-K, is intended to assist in providing an understanding of changes in our results of operations and financial condition and is organized as follows:

- *Forward-Looking Statements.* This section provides a description of certain factors that could cause actual results or events to differ materially from anticipated results or events.
- *Overview.* This section provides a general description of our business and recent events.
- *Material Changes in Results of Operations.* This section provides an analysis of our results of operations for the three months ended March 31, 2026 and 2025.
- *Material Changes in Financial Condition.* This section provides an analysis of our corporate and subsidiary liquidity as of March 31, 2026 and our condensed consolidated statements of cash flows for the three months ended March 31, 2026 and 2025.

The capitalized terms used below have been defined in the notes to our condensed consolidated financial statements. In the following text, the terms “we,” “our,” “our company” and “us” may refer, as the context requires, to Liberty Global or collectively to Liberty Global and its subsidiaries.

Unless otherwise indicated, convenience translations into U.S. dollars are calculated, and operational data is presented, as of March 31, 2026.

Forward-Looking Statements

Certain statements in this Quarterly Report on Form 10-Q constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. To the extent that statements in this Quarterly Report are not recitations of historical fact, such statements constitute forward-looking statements, which, by definition, involve risks and uncertainties that could cause actual results to differ materially from those expressed or implied by such statements. In particular, statements under Part I, Item 2. *Management's Discussion and Analysis of Financial Condition and Results of Operations*, Part I, Item 3. *Quantitative and Qualitative Disclosures About Market Risk* and Part II, Item 2. *Unregistered Sales of Equity Securities and Use of Proceeds* may contain forward-looking statements, including statements regarding our business, product, foreign currency, hedging and finance strategies, our property and equipment additions, subscriber growth and retention rates, competitive, regulatory and economic factors, the timing and impacts of proposed transactions, the maturity of our markets, the potential impact of large-scale health crises on our company, the anticipated impacts of new legislation (or changes to existing rules and regulations), anticipated changes in our revenue, costs or growth rates, our liquidity, credit risks, foreign currency risks, interest rate risks, target leverage levels, debt covenants, our future projected contractual commitments and cash flows and other information and statements that are not historical fact. Where, in any forward-looking statement, we express an expectation or belief as to future results or events, such expectation or belief is expressed in good faith and believed to have a reasonable basis, but there can be no assurance that the expectation or belief will result or be achieved or accomplished. In evaluating these statements, you should consider the risks and uncertainties discussed in Part I, Item 1A. *Risk Factors* of our 2025 10-K, as well as the following list of some, but not all, of the factors that could cause actual results or events (including with respect to our affiliates) to differ materially from anticipated results or events:

- economic and business conditions and industry trends in the countries in which we or our affiliates operate, including the impact of the increasingly uncertain and volatile economic conditions, an inflationary environment and changes in government policies, including those related to trade and tariffs;
- the competitive environment in the industries and in the countries in which we or our affiliates operate, including competitor responses to our products and services;
- our ability to manage rapid technological changes, including our ability to adequately manage our legacy technologies;
- the effects of new, emerging or competing technologies, including those that could make our products less desirable or obsolete;
- the impact of our future financial performance, or market conditions generally, on the availability, terms and deployment of capital;

- our ability to adequately forecast and plan future network requirements;
- changes in laws, monetary policies and government regulations that may impact the availability or cost of capital and the derivative instruments that hedge certain of our financial risks;
- changes in consumer video, mobile and broadband usage, preferences and habits, including increased demand for high-speed data transmission services and artificial intelligence-enabled services;
- consumer acceptance of our existing service offerings, including our broadband internet, video, fixed-line telephony, mobile and business service offerings, and of new technology, programming alternatives and other products and services that we may offer in the future;
- the availability of attractive programming for our video services and the costs associated with such programming, including, but not limited to, production costs, retransmission and copyright fees;
- our ability to continue to use intellectual property used to conduct our operations;
- the activities of device manufacturers and our operating companies' ability to secure adequate and timely supply of handsets that experience high demand;
- uncertainties inherent in the development, and integration, of new business lines and business strategies;
- our ability to increase revenue from business services offered to our affiliates and other third parties;
- the availability, cost and regulation of spectrum used in our business;
- the ability of suppliers and vendors (including our third-party wireless network provider, Three (Hutchison), under our mobile virtual network operator arrangement at VM Ireland) to timely deliver quality products, equipment, software, services and access;
- the leakage of sensitive customer or company data or the failure by us, our affiliates or our third-party providers to comply with applicable data protection laws, regulations and rules;
- our ability and the ability of our third-party service providers to anticipate, protect against, mitigate and contain the loss of our and our customers' data as a result of cyber attacks on us or any of our affiliates or our third-party service providers;
- a failure in our network and information systems, whether caused by a natural failure or a security breach, and unauthorized access to our networks;
- fluctuations in currency exchange rates and interest rates;
- instability in global financial markets, including sovereign debt issues, currency instability and related fiscal or monetary reforms;
- changes in, or failure or inability to comply with, government regulations and legislation in the countries in which we or our affiliates operate and any adverse outcomes from regulatory proceedings;
- changes in laws or treaties relating to taxation, or the interpretation thereof, in Bermuda, the U.K., the E.U., the U.S. or in other countries in which we or our affiliates operate;
- the effect of perceived health risks associated with electromagnetic radiation from base stations and associated equipment;
- our ability to navigate the potential impacts on our business resulting from the U.K.'s departure from the E.U.;
- our ability to successfully acquire new businesses or form joint ventures and, if acquired or joined, to integrate, realize anticipated synergies from, and implement our business plans with respect to, the businesses we have acquired or joined or that we expect to acquire or join on the timelines, or within the budgets, estimated for such integrations;
- successfully integrating businesses or operations that we acquire or partner with on the timelines, or within the budgets, estimated for such integrations;
- our ability to realize the expected synergies from our acquisitions and joint ventures in the amounts anticipated or on the anticipated timelines;
- our ability to obtain regulatory and shareholder approval and satisfy other conditions necessary to close acquisitions, dispositions, combinations or joint ventures and the impact of conditions imposed by competition and other regulatory authorities in connection with any of our acquisitions, dispositions, combinations or joint ventures;

- problems we may discover post-closing with the operations, including the internal controls and financial reporting processes, of businesses we acquire or with whom we create joint ventures;
- operating costs, customer loss and business disruption, including maintaining relationships with employees, customers, suppliers or vendors, may be greater than expected in connection with our acquisitions, dispositions or joint ventures;
- changes in the nature of key strategic relationships with partners and joint venturers;
- our ability to profit from investments, such as our joint ventures, that we do not solely control;
- our potential exposure to additional tax liabilities;
- the effect on our businesses of strikes or collective action by certain of our employees that are represented by trade unions or work councils;
- our capital structure and factors related to our debt arrangements;
- our ability to maintain or increase rates to our subscribers or to pass through increased costs to our subscribers, including with respect to our significant property and equipment additions, as a result of, among other things, inflationary and cost of living pressures;
- the availability and cost of capital for the acquisition, maintenance and/or development of telecommunications networks, products and services;
- consumer disposable income and spending levels, including the availability and amount of individual consumer debt, as a result of, among other things, inflationary or cost of living pressures;
- our ability to freely access the cash of our operating companies;
- the risk of default by counterparties to our cash investments, derivative and other financial instruments and undrawn debt facilities;
- the loss of key employees and the lack of qualified personnel;
- our ability to provide satisfactory customer service, including support for new and evolving products and services;
- government intervention that requires opening our broadband distribution networks to competitors, such as certain regulatory obligations imposed in Belgium;
- our ability to maintain and further develop our direct and indirect distribution channels;
- the outcome of any pending or threatened litigation; and
- events that are outside of our control, such as political unrest in international markets, terrorist attacks, armed conflicts, malicious human acts, natural disasters, epidemics, pandemics and other similar events, including the ongoing invasion of Ukraine by Russia and the continuing conflicts in the Middle East.

The broadband distribution and mobile service industries are changing rapidly and, therefore, the forward-looking statements of expectations, plans and intents in this Quarterly Report are subject to a significant degree of risk. These forward-looking statements and the above-described risks, uncertainties and other factors speak only as of the date of this Quarterly Report, and we expressly disclaim any obligation or undertaking to disseminate any updates or revisions to any forward-looking statement contained herein, to reflect any change in our expectations with regard thereto, or any other change in events, conditions or circumstances on which any such statement is based. Readers are cautioned not to place undue reliance on any forward-looking statement.

Overview

General

We are an international provider of broadband internet, video, fixed-line telephony and mobile communications services to residential customers and businesses in Europe and are an active investor across the technology, media, sports and infrastructure sectors. We also provide innovative technology, operational and financial services to our affiliates and third parties. We provide residential and B2B communications services in (i) Belgium and Luxembourg through Telenet and (ii) Ireland through VM Ireland. In addition, we own 50% noncontrolling interests in (a) the VMO2 JV, which provides residential and B2B communications services in the U.K., and (b) the VodafoneZiggo JV, which provides residential and B2B communications services in the Netherlands.

We also have controlling interests in Wyre, an independent infrastructure company in Belgium, and Formula E, a global electric motor racing series.

Operations

At March 31, 2026, our reportable segments, including our nonconsolidated JVs, as defined in note 15 to our condensed consolidated financial statements, owned and operated networks that passed 29,147,600 homes and served 10,914,200 fixed-line customers and 48,528,300 mobile subscribers.

Competition and Other External Factors

We are experiencing competition in all of the markets in which we or our affiliates operate. This competition, together with macroeconomic and regulatory factors, has adversely impacted our revenue, number of customers and/or average monthly subscription revenue per fixed-line customer or mobile subscriber, as applicable (**ARPU**). For additional information regarding the revenue impact of changes in the fixed-line customers and ARPU of our consolidated reportable segments, see *Discussion and Analysis of our Reportable Segments* below.

We are subject to inflationary pressures with respect to labor, programming and other costs. While we attempt to increase our revenue to offset increases in costs, there is no assurance that we will be able to do so. Therefore, costs could rise faster than associated revenue, thereby resulting in a negative impact on our operating results, cash flows and liquidity. The economic environment in the respective countries in which we operate is a function of government, economic, fiscal and monetary policies and various other factors beyond our control that could lead to inflation. We are unable to predict the extent that price levels might be impacted in future periods by the current state of the economies in the countries in which we operate.

Material Changes in Results of Operations

In the following discussion, we quantify the estimated impact of material acquisitions (the **Acquisition Impact**) and dispositions on our operating results. The Acquisition Impact represents our estimate of the difference between the operating results of the periods under comparison that is attributable to an acquisition. In general, we base our estimate of the Acquisition Impact on an acquired entity's operating results during the first 3 to 12 months following the acquisition date, as adjusted to remove integration costs and any other material unusual or non-operational items, such that changes from those operating results in subsequent periods are considered to be organic changes. Accordingly, in the following discussion, (i) organic variances attributed to an acquired entity during the first 12 months following the acquisition date represent differences between the Acquisition Impact and the actual results and (ii) the calculation of our organic change percentages includes the organic activity of an acquired entity relative to the Acquisition Impact of such entity. With respect to material dispositions, the organic changes that are discussed below reflect adjustments to exclude the historical prior-year results of any disposed entities to the extent that such entities are not included in the corresponding results for the current-year period.

Changes in foreign currency exchange rates have a significant impact on our reported operating results, as all of our operating segments have functional currencies other than the U.S. dollar. Our primary exposure to foreign exchange (**FX**) risk during the three months ended March 31, 2026 was to the euro, as substantially all of our reported revenue during the period was derived from subsidiaries whose functional currencies are the euro. In addition, our reported operating results are impacted by changes in the exchange rates for certain other local currencies in Europe. The portions of the changes in the various components of our results of operations that are attributable to changes in FX are highlighted under *Discussion and Analysis of our Reportable Segments* and *Discussion and Analysis of our Consolidated Operating Results* below. For information regarding our foreign currency risks and the applicable foreign currency exchange rates in effect for the periods covered by this Quarterly Report, see Part I, Item 3. *Quantitative and Qualitative Disclosures about Market Risk — Foreign Currency Risk* below.

The amounts presented and discussed below represent 100% of each of our consolidated and nonconsolidated reportable segment's results of operations, despite only holding a 50% noncontrolling interest in both the VMO2 JV and the VodafoneZiggo JV. We account for our 50% interests in both the VMO2 JV and the VodafoneZiggo JV under the equity method; accordingly, our share of their operating results is included in share of results of affiliates, net in our condensed consolidated statements of operations. Noncontrolling interests, primarily associated with Wyre and Formula E, are reflected in net earnings or loss attributable to noncontrolling interests in our condensed consolidated statements of operations.

Discussion and Analysis of our Reportable Segments

General

Telenet, VM Ireland, the VMO2 JV and the VodafoneZiggo JV derive their revenue primarily from residential and B2B communications services. Wyre derives revenue primarily by providing access to its network on a wholesale basis. For detailed information regarding the composition of our reportable segments, our “all other category” and how we define and categorize our revenue components, see note 15 to our condensed consolidated financial statements. For information regarding the results of operations of the VMO2 JV and the VodafoneZiggo JV, refer to *Discussion and Analysis of our Consolidated Operating Results — Share of results of affiliates, net* below.

The tables presented below in this section provide the details of the revenue and Adjusted EBITDA of our reportable segments for the three months ended March 31, 2026, as compared to the corresponding period in 2025. These tables present (i) the amounts reported for the current and comparative periods, (ii) the reported U.S. dollar change and percentage change from period to period and (iii) with respect to our consolidated reportable segments, the organic U.S. dollar change and percentage change from period to period. For our organic comparisons, which exclude the impact of FX, we assume that exchange rates remained constant at the prior-period rate during all periods presented. We also provide a table showing the Adjusted EBITDA margins of our reportable segments for the three months ended March 31, 2026 and 2025 at the end of this section.

Consolidated Adjusted EBITDA is a non-GAAP measure, which we believe is a meaningful measure because it represents a transparent view of our recurring operating performance that is unaffected by our capital structure and allows management to readily view operating trends from a consolidated view. Investors should view consolidated Adjusted EBITDA as a supplement to, and not a substitute for, GAAP measures of performance included in our condensed consolidated statements of operations.

The following table provides a reconciliation of net earnings (loss) to total consolidated Adjusted EBITDA:

	Three months ended March 31,

Revenue of our Reportable Segments

General. While not specifically discussed in the below explanations of the changes in the revenue of our reportable segments, we are experiencing competition in all of our markets. This competition has an adverse impact on our ability to increase or maintain our total number of customers and/or our ARPU.

Variances in the subscription revenue that we receive from our customers are a function of (i) changes in the number of our fixed-line customers or mobile subscribers outstanding during the period and (ii) changes in ARPU. Changes in ARPU can be attributable to (a) changes in prices, (b) changes in bundling or promotional discounts, (c) changes in the tier of services selected, (d) variances in subscriber usage patterns and (e) the overall mix of fixed and mobile products within a segment during the period.

	Three months ended March 31,		Increase (decrease)		Organic increase (decrease)

Telenet. The details of the increase in Telenet’s revenue during the three months ended March 31, 2026, as compared to the corresponding period in 2025, are set forth below:

	Subscription revenue	Non- subscription revenue	Total
	in millions		
Decrease in residential fixed subscription revenue due to change in:			
Average number of customers	\$ (5.4)	\$ —	\$ (5.4)
ARPU	(2.2)	—	(2.2)

Total	<u>\$ 50.3</u>	<u>\$ (34.1)</u>	<u>\$ 16.2</u>

(a) The increase in residential mobile non-subscription revenue is primarily attributable to an increase in revenue from handset sales.

Wyre. Wyre’s revenue increased \$18.1 million during the three months ended March 31, 2026, as compared to the corresponding period in 2025. Excluding the effects of FX, Wyre’s revenue decreased \$1.9 million.

VM Ireland. The details of the increase in VM Ireland’s revenue during the three months ended March 31, 2026, as compared to the corresponding period in 2025, are set forth below:

	Subscription revenue	Non- subscription revenue	Total
	in millions

Programming and Other Direct Costs of Services, Other Operating Expenses and SG&A Expenses of our Reportable Segments

For information regarding the changes in our (i) programming and other direct costs of services, (ii) other operating expenses and (iii) SG&A expenses, see *Discussion and Analysis of our Consolidated Operating Results* below.

Adjusted EBITDA of our Reportable Segments

Adjusted EBITDA is the primary measure used by our CODM to evaluate segment operating performance. As presented below, consolidated Adjusted EBITDA is a non-GAAP measure, which investors should view as a supplement to, and not a substitute for, GAAP measures of performance included in our condensed consolidated statements of operations. The following table sets forth the Adjusted EBITDA of our reportable segments.

	Three months ended March 31,		Increase		Organic increase (decrease)

Adjusted EBITDA Margin

The following table sets forth the Adjusted EBITDA margins (Adjusted EBITDA divided by revenue) of each of our reportable segments:

	Three months ended March 31,	
	2026	2025
Telenet	24.2 %	21.0 %
Wyre	77.6 %	80.6 %
VM Ireland	30.2 %	32.1 %
VMO2 JV	33.9 %	34.3 %
VodafoneZiggo JV	42.0 %	44.0 %

In addition to organic changes in the revenue, operating and SG&A expenses of our reportable segments, the Adjusted EBITDA margins presented above include the impact of acquisitions, as applicable. For discussion of the factors contributing to the changes in the Adjusted EBITDA margins of our consolidated reportable segments, see the analysis of our revenue included in *Discussion and Analysis of our Reportable Segments* above and the analysis of our expenses included in *Discussion and Analysis of our Consolidated Operating Results* below. For discussion of the factors contributing to the changes in the Adjusted EBITDA margins of the VMO2 JV and the VodafoneZiggo JV, see *Discussion and Analysis of our Consolidated Operating Results — Share of results of affiliates, net* below.

Residential fixed non-subscription revenue includes, among other items, channel carriage fees, late fees and revenue from the sale of equipment.
- (b) Residential subscription revenue from subscribers who purchase bundled services at a discounted rate is generally allocated proportionally to each service based on the standalone price for each individual service. As a result, changes in the standalone pricing of our fixed and mobile products or the composition of bundles can contribute to changes in our product revenue categories from period to period.
- (c) Residential mobile subscription revenue includes amounts received from subscribers for ongoing services. Residential mobile non-subscription revenue includes, among other items, interconnect revenue and revenue from sales of mobile handsets and other devices. Residential mobile interconnect revenue was \$7.2 million and \$8.3 million during the three months ended March 31, 2026 and 2025, respectively.

- (d) B2B subscription revenue represents revenue from (i) services provided to SOHO subscribers and (ii) mobile services provided to medium and large enterprises. SOHO subscribers pay a premium price to receive expanded service levels along with broadband internet, video, fixed-line telephony or mobile services that are the same or similar to the mass marketed products offered to our residential subscribers. B2B non-subscription revenue includes (a) revenue from business broadband internet, video, fixed-line telephony and data services offered to medium and large enterprises and, fixed-line and mobile services on a wholesale basis, to other operators and (b) revenue from long-term leases of portions of our network.
- (e) Other revenue includes, among other items, (i) revenue earned from the U.K. JV Services, the Sunrise Services and the NL JV Services, (ii) revenue at Formula E, (iii) revenue earned from the sales of CPE to the VMO2 JV and the VodafoneZiggo JV and (iv) broadcasting revenue at Telenet and VM Ireland.

Total revenue. Our consolidated revenue increased \$103.4 million or 8.8% during the three months ended March 31, 2026 as compared to the corresponding period in 2025. This increase includes a decrease of \$57.7 million attributable to the impact of dispositions. On an organic basis, our consolidated revenue increased \$29.1 million or 2.9%.

Residential revenue. The details of the increase in our consolidated residential revenue during the three months ended March 31, 2026, as compared to the corresponding period in 2025, are as follows:

Decrease in residential fixed subscription revenue due to change in:	
Average number of customers	\$ (8.9)
ARPU	(1.8)
Increase in residential fixed non-subscription revenue	2.2
Total decrease in residential fixed revenue	(8.5)
Decrease in residential mobile subscription revenue	(0.2)
Increase in residential mobile non-subscription revenue	2.4
Total organic decrease in residential revenue	(6.3)
Impact of FX	62.7
Total increase in residential revenue	\$ 56.4

On an organic basis, our consolidated residential mobile non-subscription revenue increased \$2.4 million or 6.6% during the three months ended March 31, 2026 as compared to the corresponding period in 2025, primarily due to an increase at Telenet.

Other revenue. On an organic basis, our consolidated other revenue increased \$32.7 million or 8.2% during the three months ended March 31, 2026 as compared to the corresponding period in 2025, primarily due to (i) higher revenue at Formula E, (ii) higher revenue earned from the sale of CPE to the VMO2 JV and (iii) an increase in revenue earned from the U.K. JV Services.

For additional information regarding the changes in our residential, B2B and other revenue, see *Discussion and Analysis of our Reportable Segments* above.

Programming and other direct costs of services

Programming and other direct costs of services include programming and copyright costs, interconnect and access costs, costs of mobile handsets and other devices and other direct costs related to our operations, including costs associated with our transitional and other service agreements and certain costs related to the development of externally marketed software. Programming and copyright costs represent a significant portion of our operating costs and are subject to rise in future periods due to various factors, including (i) higher costs associated with the expansion of our digital video content, including rights associated with ancillary product offerings and rights that provide for the broadcast of live sporting events, and (ii) rate increases.

Our programming and other direct costs of services increased \$23.2 million or 5.8% during the three months ended March 31, 2026, as compared to the corresponding period in 2025. This increase includes a decrease of \$47.3 million attributable to the impact of dispositions. On an organic basis, our programming and other direct costs of services increased \$26.0 million or 7.3%. This increase includes the following factors:

- An increase in other direct costs of \$29.5 million related to costs incurred in connection with Formula E race events;
- A decrease in programming and copyright costs of \$16.6 million or 10.5%, primarily attributable to lower costs for certain content at Telenet;
- An increase in costs of \$15.4 million related to the sales of CPE to the VMO2 JV;
- An increase in costs of \$6.0 million related to the sales of CPE to the VodafoneZiggo JV; and
- An increase in mobile handset and other device costs of \$4.6 million or 16.4%, primarily due to higher sales volumes at Telenet.

Other operating expenses

Other operating expenses include network operations, customer operations, customer care, share-based compensation and other costs related to our operations. We do not include share-based compensation in the following discussion and analysis of the other operating expenses of our consolidated reportable segments as share-based compensation expense is not included in the performance measures of our consolidated reportable segments. Share-based compensation expense is separately discussed further below.

The details of our other operating expenses are as follows:

Our other operating expenses (exclusive of share-based compensation expense) increased \$28.5 million or 15.1% during the three months ended March 31, 2026, as compared to the corresponding period in 2025. This increase includes a decrease of \$1.8 million attributable to the impact of dispositions. On an organic basis, our other operating expenses increased \$7.2 million or 3.9%. This increase includes the following factors:

- An increase in core network and information technology-related costs of \$8.0 million or 39.7%, primarily due to (i) higher information technology-related costs, including an increase at Telenet, and (ii) higher leased bandwidth costs at Telenet; and
- A decrease in personnel costs of \$6.1 million or 10.4%, primarily due to lower staffing levels, including a decrease at Telenet.

SG&A expenses

SG&A expenses include human resources, information technology, general services, management, finance, legal, external sales and marketing costs, share-based compensation and other general expenses. We do not include share-based compensation in the following discussion and analysis of the SG&A expenses of our consolidated reportable segments as share-based compensation expense is not included in the performance measures of our consolidated reportable segments. Share-based compensation expense is separately discussed further below.

Supplemental SG&A expense information

Total	\$ 264.7	\$ 254.9	\$ 9.8	3.8	\$ (8.4)	(3.4)

(a) General and administrative expenses include all personnel-related costs within our SG&A expenses, including personnel-related costs associated with our sales and marketing function.

Our SG&A expenses (exclusive of share-based compensation expense) increased \$9.8 million or 3.8% during the three months ended March 31, 2026, as compared to the corresponding period in 2025. This increase includes a decrease of \$4.5 million attributable to the impact of dispositions. On an organic basis, our SG&A expenses decreased \$8.4 million or 3.4%. This decrease includes the following factors:

- A decrease in external sales and marketing costs of \$5.8 million or 6.8%, primarily due to lower costs associated with advertising campaigns; and
- A decrease in personnel costs of \$2.3 million or 1.8%, primarily due to the net effect of (i) lower staffing levels, including a decrease at Telenet, and (ii) higher average costs per employee.

Share-based compensation expense

Our share-based compensation expense primarily relates to the share-based incentive awards issued by Liberty Global to its employees and employees of its subsidiaries. A summary of our aggregate share-based compensation expense is set forth below:

	Three months ended March 31,	
	2026	2025
	in millions	
Liberty Global (a):		
Non-performance based incentive awards	\$ 21.8	\$ 21.8
Performance based incentive awards	10.3	5.5
Other (b)	3.0	6.1
Total Liberty Global	35.1	33.4
Other	2.0	—
Total	\$ 37.1	\$ 33.4
Included in:		
Other operating expense	\$ 3.2	\$ 2.9
SG&A expense	33.9	30.5
Total	\$ 37.1	\$ 33.4

- (a) Amounts include share-based compensation expense related to certain Telenet Replacement Awards.
- (b) Represents annual incentive compensation and defined contribution plan liabilities that have been or are expected to be settled in Liberty Global common shares. In the case of annual incentive compensation, shares have been or will be issued to senior management and key employees pursuant to a shareholding incentive program. The shareholding incentive program allows these employees to elect to receive up to 100% of their annual incentive compensation in common shares of Liberty Global in lieu of cash.

For additional information regarding our share-based compensation expense, see note 12 to our condensed consolidated financial statements.

Depreciation and amortization expense

Our depreciation and amortization expense was \$264.8 million and \$232.2 million for the three months ended March 31, 2026 and 2025, respectively. Excluding the effects of FX, depreciation and amortization expense increased \$5.6 million or 2.4% during the three months ended March 31, 2026, as compared to the corresponding period in 2025. This increase is primarily due to the net effect of (i) an increase associated with property and equipment additions related to the installation of CPE, the expansion and upgrade of our networks and other capital initiatives, primarily at Telenet, and (ii) a decrease associated with certain assets becoming fully depreciated, primarily at Telenet.

Impairment, restructuring and other operating items, net

We recognized impairment, restructuring and other operating items, net, of \$40.8 million and (\$1.7 million) during the three months ended March 31, 2026 and 2025, respectively.

The amount for the 2026 period primarily includes (i) restructuring costs of \$21.3 million, primarily at Telenet, and (ii) an impairment charge on certain long-lived assets of \$11.1 million.

If, among other factors, the adverse impacts of economic, competitive, regulatory or other factors were to cause our results of operations or cash flows to be worse than anticipated, we could conclude in future periods that impairment charges are

required in order to reduce the carrying values of our goodwill and, to a lesser extent, other long-lived assets. Any such impairment charges could be significant.

Interest expense

We recognized interest expense of \$113.7 million and \$127.5 million during the three months ended March 31, 2026 and 2025, respectively. Excluding the effects of FX, interest expense decreased \$25.1 million or 19.7% during the three months ended March 31, 2026, as compared to the corresponding period in 2025. This decrease is primarily attributable to a lower weighted average interest rate. For additional information regarding our outstanding indebtedness, see note 9 to our condensed consolidated financial statements.

It is possible that the interest rates on (i) any new borrowings could be higher than the current interest rates on our existing indebtedness and (ii) our variable-rate indebtedness could increase in future periods. As further discussed in note 6 to our condensed consolidated financial statements and under Part I, Item 3. *Quantitative and Qualitative Disclosures about Market Risk* below, we use derivative instruments to manage our interest rate risks.

Realized and unrealized gains (losses) on derivative instruments, net

Our realized and unrealized gains or losses on derivative instruments include (i) unrealized changes in the fair values of our derivative instruments that are non-cash in nature until such time as the derivative contracts are fully or partially settled and (ii) realized gains or losses upon the full or partial settlement of the derivative contracts. The details of our realized and unrealized gains (losses) on derivative instruments, net, are as follows:

	Three months ended March 31,	
	2026	2025
	in millions	
Cross-currency and interest rate derivative contracts (a)	\$ 130.2	\$ (110.7)
Foreign currency forward and option contracts	2.0	(4.7)
Equity-related derivative instruments (b)	—	(49.2)
Other	—	(0.1)
Total	\$ 132.2	\$ (164.7)

(a) The gain for the 2026 period is attributable to net gains associated with changes in (i) the relative value of certain currencies and (ii) certain market interest rates. In addition, the gain for the 2026 period includes a net gain of \$0.4 million, resulting from changes in our credit risk valuation adjustments. The loss for the 2025 period is primarily attributable to the net effect of (a) a net loss associated with changes in the relative value of certain currencies and (b) a net gain associated with changes in certain market interest rates. In addition, the loss for the 2025 period includes a net gain of \$4.2 million, resulting from changes in our credit risk valuation adjustments.

(b) The recurring fair value measurements of our equity-related derivative instruments are based on Black-Scholes pricing models.

For additional information concerning our derivative instruments, see notes 6 and 7 to our condensed consolidated financial statements and Part I, Item 3. *Quantitative and Qualitative Disclosures about Market Risk* below.

Foreign currency transaction gains (losses), net

Our foreign currency transaction gains or losses primarily result from the remeasurement of monetary assets and liabilities that are denominated in currencies other than the underlying functional currency of the applicable entity. Unrealized foreign currency transaction gains or losses are computed based on period-end exchange rates and are non-cash in nature until such time as the amounts are settled. The details of our foreign currency transaction gains (losses), net, are as follows:

	Three months ended March 31,

Total	<u>\$ 430.2</u>	<u>\$ (1,081.0)</u>

(a) Amounts primarily relate to loans between certain of our non-operating subsidiaries in Europe.

Realized and unrealized gains due to changes in fair values of certain investments, net

Our realized and unrealized gains or losses due to changes in fair values of certain investments include unrealized gains or losses associated with changes in fair values that are non-cash in nature until such time as these gains or losses are realized through cash transactions. For additional information regarding our investments and fair value measurements, see notes 5 and 7, respectively, to our condensed consolidated financial statements. The details of our realized and unrealized gains due to changes in fair values of certain investments, net, are as follows:

Share of results of affiliates, net

The following table sets forth the details of our share of results of affiliates, net:

	Three months ended March 31,	
	2026	2025
in millions		
VMO2 JV (a)	\$ (16.6)	\$ (86.6)

nexfibre JV	(5.1)	(12.6)
Other, net	(1.2)	(10.2)
Total	<u>\$ (21.7)</u>	<u>\$ (148.0)</u>

(a) Represents our share of the results of operations of the VMO2 JV. The summarized results of operations of the VMO2 JV are set forth below:

	Three months ended March 31,	
	2026	2025
in millions		
Revenue	<u>\$ 3,222.4</u>	<u>\$ 3,126.3</u>
Adjusted EBITDA	<u>\$ 1,091.8</u>	<u>\$ 1,073.4</u>
Operating income	<u>\$ 96.0</u>	<u>\$ 140.1</u>
Non-operating expense (1)	<u>\$ (135.0)</u>	<u>\$ (352.3)</u>
Net loss	<u>\$ (27.6)</u>	<u>\$ (165.8)</u>

(1) Includes interest expense of \$414.6 million and \$389.6 million in the respective periods shown.

The change in the VMO2 JV's revenue during the three months ended March 31, 2026, as compared to the corresponding period in 2025, is primarily due to the net effect of (i) a decrease in other revenue related to low-margin construction revenue from the nexfibre JV, (ii) a decrease in B2B fixed revenue as O2 Daisy rationalizes the product portfolio, (iii) a decrease in consumer fixed revenue and (iv) an increase in wholesale revenue primarily driven by an increase in mobile virtual network operator revenue. The changes in the VMO2 JV's Adjusted EBITDA during the three months ended March 31, 2026, as compared to the corresponding period in 2025, is primarily due to the net effect of (a) the aforementioned changes in revenue, (b) a provision for legal matters during the quarter and (c) cost reduction initiatives. In addition, the reported revenue and Adjusted EBITDA amounts are impacted by FX.

- (b) Represents (i) our share of the results of operations of the VodafoneZiggo JV and (ii) interest income of \$14.7 million and \$13.3 million in the respective periods shown, representing 100% of the interest earned on the VodafoneZiggo JV Receivables. The summarized results of operations of the VodafoneZiggo JV are set forth below:

	Three months ended March 31,	
	2026	2025
	in millions	
Revenue	\$ 1,148.5	\$ 1,052.0
Adjusted EBITDA	\$ 482.0	\$ 463.1
Operating income	\$ 121.8	\$ 17.8
Non-operating expense (1)	\$ (118.6)	\$ (106.8)
Net loss	\$ (16.7)	\$ (70.5)

- (1) Includes interest expense of \$187.8 million and \$187.7 million in the respective periods shown.

The change in the VodafoneZiggo JV's revenue during the three months ended March 31, 2026, as compared to the corresponding period in 2025, is primarily due to (i) a decrease in B2B fixed revenue, partially offset by the repricing impact, and (ii) a decrease in B2B mobile revenue. The change in the VodafoneZiggo JV's Adjusted EBITDA during the three months ended March 31, 2026, as compared to the corresponding period in 2025, is primarily due to the net effect of (a) the aforementioned changes in revenue, (b) an increase in network resilience program expenditure, (c) higher marketing costs and (d) cost control measures in labor, product and service delivery, and energy costs. In addition, the reported revenue and Adjusted EBITDA amounts are impacted by FX.

The VodafoneZiggo JV is experiencing significant competition in both its fixed-line and mobile operations. If the adverse impacts of economic, competitive, regulatory or other factors were to cause significant deterioration of the results of operations or cash flows of the VodafoneZiggo JV, we could conclude in future periods that our investment in the VodafoneZiggo JV is impaired or management of the VodafoneZiggo JV could conclude that an impairment of the VodafoneZiggo JV goodwill and, to a lesser extent, long-lived assets, is required. Any such impairment of the VodafoneZiggo JV's goodwill or our investment in the VodafoneZiggo JV would be reflected as a component of share of results of affiliates, net, in our condensed consolidated statement of operations. Our share of any such impairment charges could be significant.

Other income, net

We recognized other income, net, of \$25.0 million and \$11.4 million during the three months ended March 31, 2026 and 2025, respectively, which includes interest and dividend income of \$12.4 million and \$18.4 million, respectively.

Income tax benefit (expense)

We recognized income tax benefit (expense) of (\$175.4 million) and \$70.0 million during the three months ended March 31, 2026 and 2025, respectively.

The income tax expense during the three months ended March 31, 2026 differs from the expected income tax expense of \$80.0 million (based on the Bermuda statutory income tax rate of 15.0%). This difference is primarily due to the net negative impact of (i) the derecognition of a tax litigation-related receivable and (ii) statutory rates in certain jurisdictions in which we operate that are different than the Bermuda statutory income tax rate. The net negative impact of these items was partially offset by the positive impact of non-deductible or non-taxable foreign currency exchange results

The income tax benefit during the three months ended March 31, 2025 differs from the expected income tax benefit of \$209.0 million (based on the Bermuda statutory income tax rate of 15.0%), primarily due to the net negative impact of (i) non-deductible or non-taxable foreign currency exchange results and (ii) certain permanent differences between the financial and tax accounting treatment of items associated with certain investments. The net negative impact of these items was partially offset by the net positive impact of (a) statutory rates in certain jurisdictions in which we operate that are different than the Bermuda statutory income tax rate and (b) a net decrease in valuation allowances.

For additional information concerning our income taxes, see note 11 to our condensed consolidated financial statements.

Net earnings (loss)

During the three months ended March 31, 2026 and 2025, we reported net earnings (loss) of \$358.2 million and (\$1,323.3 million), respectively, consisting of (i) operating income of \$23.8 million and \$60.7 million, respectively, (ii) net non-operating income (expense) of \$509.8 million and (\$1,454.0 million), respectively, and (iii) income tax benefit (expense) of (\$175.4 million) and \$70.0 million, respectively.

Gains or losses associated with (i) changes in the fair values of derivative instruments, (ii) movements in foreign currency exchange rates and (iii) the disposition of assets and changes in ownership are subject to a high degree of volatility and, as such, any gains from these sources do not represent a reliable source of income. In the absence of significant gains in the future from these sources or from other non-operating items, our ability to achieve earnings is largely dependent on our ability to increase our aggregate operating income to a level that more than offsets the aggregate amount of our (a) interest expense, (b) other non-operating expenses and (c) income tax expense.

Due largely to the fact that we seek to maintain our debt at levels that provide for attractive equity returns, as discussed under *Material Changes in Financial Condition — Capitalization* below, we expect we will continue to report significant levels of interest expense for the foreseeable future. For information concerning our expectations with respect to trends that may affect certain aspects of our operating results in future periods, see the discussion under *Overview* above. For information concerning the reasons for changes in specific line items in our condensed consolidated statements of operations, see *Discussion and Analysis of our Reportable Segments* and *Discussion and Analysis of our Consolidated Operating Results* above.

Net earnings attributable to noncontrolling interests

Net earnings attributable to noncontrolling interests was \$20.4 million and \$14.0 million during the three months ended March 31, 2026 and 2025, respectively, attributable to noncontrolling interests primarily associated with Wyre and Formula E.

Material Changes in Financial Condition

Sources and Uses of Cash

We are a holding company that is dependent on the capital resources of our subsidiaries to satisfy our liquidity requirements at the corporate level. Each of our significant operating subsidiaries is separately financed within one of our two subsidiary “borrowing groups.” These borrowing groups include the respective restricted parent and subsidiary entities within Telenet and VM Ireland. Although our borrowing groups typically generate cash from operating activities, the terms of the instruments governing the indebtedness of these borrowing groups may restrict our ability to access the liquidity of these subsidiaries. In addition, our ability to access the liquidity of these and other subsidiaries may be limited by tax and legal considerations, the presence of noncontrolling interests and other factors.

Cash, cash equivalents and SMAs

The details of the U.S. dollar equivalent balances of our consolidated cash and cash equivalents and investments held under SMAs at March 31, 2026 are set forth in the following table (in millions):

Cash and cash equivalents held by:	
Liberty Global and unrestricted subsidiaries:	
Liberty Global (a)	\$ —
Unrestricted subsidiaries (b)	924.5
Total Liberty Global and unrestricted subsidiaries	924.5
Borrowing groups (c):	
Telenet	883.8
VM Ireland	20.0
Total borrowing groups	903.8
Total cash and cash equivalents (d)	1,828.3
Investments held under SMAs (e)	46.3
Total cash and cash equivalents and investments held under SMAs	\$ 1,874.6

(a) Represents the amount held by Liberty Global on a standalone basis.

(b) Represents the aggregate amount held by subsidiaries that are outside of our borrowing groups.

(c) Represents the aggregate amounts held by the parent entity and restricted subsidiaries of our borrowing groups.

(d) The total cash and cash equivalents balance includes \$1,062.7 million or 58.1%, \$513.0 million or 28.1% and \$250.5 million or 13.7% denominated in euros, U.S. dollars and British pound sterling, respectively.

(e) The balance of our investments held under SMAs is held by unrestricted subsidiaries of Liberty Global and includes \$46.3 million or 100.0% denominated in U.S. dollars.

For additional information regarding our cash and cash equivalents and investments held under SMAs, see the discussion under Part I, Item 3. *Quantitative and Qualitative Disclosures about Market Risk — Cash and Investments* below.

Liquidity of Liberty Global and its unrestricted subsidiaries

The \$924.5 million of aggregate cash and cash equivalents held by unrestricted subsidiaries, subject to certain tax and legal considerations, together with the \$46.3 million of investments held under SMAs, represented available liquidity at the corporate level at March 31, 2026. Our remaining cash and cash equivalents of \$903.8 million at March 31, 2026 were held by our borrowing groups, as set forth in the table above. As noted above, various factors may limit our ability to access the cash of our borrowing groups. For information regarding certain limitations imposed by our subsidiaries’ debt instruments at March 31, 2026, see note 11 to the consolidated financial statements included in our 2025 10-K.

Our short-term sources of corporate liquidity include (i) readily available assets, such as (a) cash and cash equivalents held by Liberty Global and, subject to certain tax and legal considerations, Liberty Global's unrestricted subsidiaries, and (b) investments held under SMAs, and (ii) funds derived from other items, such as (a) interest and dividend income received on our and, subject to certain tax and legal considerations, our unrestricted subsidiaries' cash and cash equivalents and investments, including dividend distributions received from the VMO2 JV or the VodafoneZiggo JV, (b) cash received with respect to transitional and other services provided to various third parties and affiliates and (c) interest received with respect to the VodafoneZiggo JV Receivables.

From time to time, Liberty Global and its unrestricted subsidiaries may also receive (i) proceeds in the form of dividend distributions or loan repayments from Liberty Global's borrowing groups or affiliates (including amounts from the VMO2 JV or the VodafoneZiggo JV) upon (a) the completion of recapitalizations, refinancings, asset sales or similar transactions by these entities or (b) the accumulation of excess cash from operations or other means, (ii) proceeds upon the disposition of investments and other assets of Liberty Global and its unrestricted subsidiaries and (iii) proceeds in connection with the incurrence of debt by Liberty Global or its unrestricted subsidiaries or the issuance of equity securities by Liberty Global, including equity securities issued to satisfy subsidiary obligations. No assurance can be given that any external funding would be available to Liberty Global or its unrestricted subsidiaries on favorable terms, or at all.

At March 31, 2026, our consolidated cash and cash equivalents included \$1,828.3 million held by entities that are domiciled outside of Bermuda. Based on our assessment of our ability to access the liquidity of our subsidiaries on a tax efficient basis and our expectations with respect to our corporate liquidity requirements, we do not anticipate that tax considerations will adversely impact our corporate liquidity over the next 12 months. Our ability to access the liquidity of our subsidiaries on a tax efficient basis is a consideration in assessing any potential share repurchase activity.

In addition, the amount of cash we receive from our subsidiaries and affiliates to satisfy U.S. dollar-denominated liquidity requirements is impacted by fluctuations in exchange rates, particularly with regard to the translation of euros and British pound sterling into U.S. dollars. In this regard, the strengthening (weakening) of the U.S. dollar against these currencies will result in decreases (increases) in the U.S. dollars received from the applicable subsidiaries and affiliates to fund the repurchase of our equity securities and other U.S. dollar-denominated liquidity requirements.

Our short- and long-term liquidity requirements include corporate general and administrative expenses and, from time to time, cash requirements in connection with (i) the repayment of third-party and intercompany debt, (ii) the satisfaction of contingent liabilities, (iii) acquisitions, (iv) the repurchase of equity and debt securities, (v) other investment opportunities, (vi) any funding requirements of our subsidiaries and affiliates or (vii) income tax payments.

Liquidity of borrowing groups

The cash and cash equivalents of our borrowing groups are detailed in the table above. In addition to cash and cash equivalents, the primary sources of liquidity of our borrowing groups are cash provided by operations and borrowing availability under their respective debt instruments. For the details of the borrowing availability of our borrowing groups at March 31, 2026, see note 9 to our condensed consolidated financial statements. The aforementioned sources of liquidity may be supplemented in certain cases by contributions and/or loans from Liberty Global and its unrestricted subsidiaries.

The liquidity of our borrowing groups generally is used to fund (i) property and equipment additions, (ii) debt service requirements and (iii) income tax payments, as well as to settle certain obligations that are not included on our March 31, 2026 condensed consolidated balance sheet. In this regard, we have significant commitments related to (a) purchase obligations associated with CPE and certain service-related commitments, (b) programming, studio output and sports rights contracts and (c) certain operating costs associated with our networks. These obligations are expected to represent a significant liquidity requirement of our borrowing groups, a significant portion of which is due over the next 12 to 24 months. For additional information regarding our commitments, see note 14 to our condensed consolidated financial statements.

From time to time, our borrowing groups may also require liquidity in connection with (i) acquisitions and other investment opportunities, (ii) loans to Liberty Global or its unrestricted subsidiaries, (iii) capital distributions to Liberty Global and other equity owners or (iv) the satisfaction of contingent liabilities. No assurance can be given that any external funding would be available to our borrowing groups on favorable terms, or at all.

For additional information regarding our consolidated cash flows, see the discussion under *Condensed Consolidated Statements of Cash Flows* below.

Capitalization

We seek to maintain our debt at levels that provide for attractive equity returns without assuming undue risk. In this regard, we generally seek to cause our operating subsidiaries to maintain their debt at levels that result in a consolidated debt balance (measured using subsidiary debt figures at swapped foreign currency exchange rates, consistent with the covenant calculation requirements of our subsidiary debt agreements) that is between four and six times our consolidated Adjusted EBITDA, although the timing of our acquisitions and financing transactions and the interplay of average and spot foreign currency rates may impact this ratio. Consolidated Adjusted EBITDA is a non-GAAP measure, which investors should view as a supplement to, and not a substitute for, GAAP measures of performance included in our condensed consolidated statements of operations.

Our ability to service or refinance our debt and to maintain compliance with the leverage covenants in the credit agreements and indentures of our borrowing groups is dependent primarily on our ability to maintain or increase the Adjusted EBITDA of our operating subsidiaries and to achieve adequate returns on our property and equipment additions and acquisitions. In addition, our ability to obtain additional debt financing is limited by the incurrence-based leverage covenants contained in the various debt instruments of our borrowing groups. For example, if the Adjusted EBITDA of one of our borrowing groups were to decline, our ability to obtain additional debt could be limited. Under our credit facilities and senior secured notes there is no cross-default risk between subsidiary borrowing groups in the event that one or more of our borrowing groups were to experience significant declines in their Adjusted EBITDA to the extent they were no longer able to service their debt obligations. Any mandatory prepayment events or events of default that may occur would only impact the relevant borrowing group in which these events occur and do not allow for any recourse to other borrowing groups or Liberty Global Ltd. Our credit facilities and senior secured notes require that certain members of the relevant borrowing group guarantee the payment of all sums payable thereunder and such group members are required to grant first-ranking security over their shares or, in certain borrowing groups, over substantially all of their assets to secure the payment of all sums payable thereunder. At March 31, 2026, each of our borrowing groups was in compliance with its debt covenants. In addition, we do not anticipate any instances of non-compliance with respect to the debt covenants of our borrowing groups that would have a material adverse impact on our liquidity during the next 12 months.

At March 31, 2026, the outstanding principal amount of our consolidated debt, together with our finance lease obligations, aggregated \$8.5 billion, including \$0.7 billion that is classified as current on our condensed consolidated balance sheet and \$3.3 billion that is not due until 2029 or thereafter. All of our consolidated debt and finance lease obligations have been borrowed or incurred by our subsidiaries at March 31, 2026.

We believe we have sufficient resources to repay or refinance the current portion of our debt and finance lease obligations and to fund our foreseeable liquidity requirements and our operations during the next 12 months. However, as our maturing debt grows in later years, we anticipate we will seek to refinance or otherwise extend our debt maturities. No assurance can be given that we will be able to complete these refinancing transactions or otherwise extend our debt maturities. In this regard, it is not possible to predict how political and economic conditions, sovereign debt concerns or any adverse regulatory developments could impact the credit and equity markets we access and, accordingly, our future liquidity and financial position. Our ability to access debt financing on favorable terms, or at all, could be adversely impacted by (i) the financial failure of any of our counterparties, which could (a) reduce amounts available under committed credit facilities and (b) adversely impact our ability to access cash deposited with any failed financial institution, and (ii) tightening of the credit markets. In addition, any weakness in the equity markets could make it less attractive to use our shares to satisfy contingent or other obligations, and sustained or increased competition, particularly in combination with adverse economic or regulatory developments, could have an unfavorable impact on our cash flows and liquidity.

For additional information concerning our debt and finance lease obligations, see notes 9 and 10, respectively, to our condensed consolidated financial statements.

Condensed Consolidated Statements of Cash Flows

General. Our cash flows are subject to significant variations due to FX.

Summary. The condensed consolidated statements of cash flows for the three months ended March 31, 2026 and 2025 are summarized as follows:

	Three months ended March 31,		Change
	2026	2025	
in millions			
Net cash provided by operating activities	\$ 107.6	\$ 129.2	\$ (21.6)
Net cash provided (used) by investing activities	(223.0)	52.5	(275.5)
Net cash used by financing activities	(114.0)	(66.2)	(47.8)
Effect of exchange rate changes on cash and cash equivalents and restricted cash	(23.8)	50.8	(74.6)
Net increase (decrease) in cash and cash equivalents and restricted cash	<u>\$ (253.2)</u>	<u>\$ 166.3</u>	<u>\$ (419.5)</u>

Operating Activities. The decrease in net cash provided by operating activities is primarily attributable to the net effect of (i) an increase in cash provided by our Adjusted EBITDA and related working capital items, (ii) a decrease in cash provided due to higher restructuring costs, (iii) a decrease in cash provided due to higher net payments related to derivative instruments and (iv) a decrease in cash provided due to higher payments for taxes. Consolidated Adjusted EBITDA is a non-GAAP measure, which investors should view as a supplement to, and not a substitute for, GAAP measures of performance included in our consolidated statements of operations.

Investing Activities. The change in net cash provided (used) by investing activities is primarily attributable to (i) a decrease in cash of \$154.3 million due to higher capital expenditures and (ii) a decrease in cash of \$121.0 million primarily due to the net effect of (a) lower net cash received from the sale of our investments held under SMAs, partially offset by (b) an increase in cash of \$101.8 million and \$73.6 million from the partial sales of our investments in ITV and EdgeConneX, respectively. Capital expenditures increased from \$243.3 million during the three months ended March 31, 2025 to \$397.6 million during the three months ended March 31, 2026, primarily due to (a) an increase in our net local currency capital expenditures and related working capital movements, including the impact of higher capital-related vendor financing, and (b) an increase due to FX.

The capital expenditures we report in our condensed consolidated statements of cash flows do not include amounts that are financed under capital-related vendor financing or finance lease arrangements. Instead, these amounts are reflected as non-cash additions to our property and equipment when the underlying assets are delivered and as repayments of debt when the principal is repaid. In this discussion, we refer to (i) our capital expenditures as reported in our condensed consolidated statements of cash flows, which exclude amounts financed under capital-related vendor financing or finance lease arrangements, and (ii) our total consolidated property and equipment additions, which include our capital expenditures on an accrual basis and amounts financed under capital-related vendor financing or finance lease arrangements. For further details regarding our property and equipment additions, see note 15 to our condensed consolidated financial statements. A reconciliation of our consolidated property and equipment additions to our consolidated capital expenditures, as reported in our condensed consolidated statements of cash flows, is set forth below:

	Three months ended March 31,	
	2026	2025
in millions		
Property and equipment additions	\$ 390.7	\$ 285.6
Assets acquired under capital-related vendor financing arrangements	(30.1)	(20.6)
Changes in current liabilities related to capital expenditures	37.0	(21.7)
Capital expenditures, net	<u>\$ 397.6</u>	<u>\$ 243.3</u>

The increase in our property and equipment additions during the three months ended March 31, 2026, as compared to the corresponding period in 2025, is primarily due to (i) an increase in local currency expenditures of our subsidiaries primarily due to (a) an increase in baseline expenditures, including network improvements and expenditures for property and facilities and

information technology systems, and (b) an increase in expenditures for new build and upgrade projects, and (ii) an increase due to FX.

Financing Activities. The increase in net cash used by financing activities is primarily attributable to the net effect of (i) an increase in cash used of \$80.9 million due to higher net repayments of debt and finance lease obligations and (ii) a decrease in cash used of \$37.9 million due to lower repurchases of Liberty Global common shares.

Adjusted Free Cash Flow

We define adjusted free cash flow as net cash provided by operating activities, plus operating-related vendor financed expenses (which represents an increase in the period to our actual cash available as a result of extending vendor payment terms beyond normal payment terms, which are typically 90 days or less, through non-cash financing activities), less (i) cash payments in the period for capital expenditures, (ii) principal payments on operating- and capital-related amounts financed by vendors and intermediaries (which represents a decrease in the period to our actual cash available as a result of paying amounts to vendors and intermediaries where we previously had extended vendor payments beyond the normal payment terms) and (iii) principal payments on finance leases (which represents a decrease in the period to our actual cash available), each as reported in our condensed consolidated statements of cash flows. Net cash provided by operating activities includes cash paid for third-party costs directly associated with successful and unsuccessful acquisitions and dispositions of \$3.2 million and \$0.8 million during the three months ended March 31, 2026 and 2025, respectively.

We believe our presentation of adjusted free cash flow, which is a non-GAAP measure, provides useful information to our investors because this measure can be used to gauge our ability to (i) service debt and (ii) fund new investment opportunities after consideration of all actual cash payments related to our working capital activities and expenses that are capital in nature whether paid inside normal vendor payment terms or paid later outside normal vendor payment terms (in which case we typically pay in less than 365 days). Adjusted free cash flow should not be understood to represent our ability to fund discretionary amounts, as we have various mandatory and contractual obligations, including debt repayments, that are not deducted to arrive at these amounts. Investors should view adjusted free cash flow as a supplement to, and not a substitute for, GAAP measures of liquidity included in our condensed consolidated statements of cash flows. Further, our adjusted free cash flow may differ from how other companies define and apply their definition of adjusted free cash flow.

The following table provides the details of our adjusted free cash flow:

	Three months ended March 31,	
	2026	2025
	in millions	
Net cash provided by operating activities	\$ 107.6	\$ 129.2
Operating-related vendor financing additions (a)	68.4	71.2
Cash capital expenditures, net	(397.6)	(243.3)
Principal payments on operating-related vendor financing	(88.0)	(86.4)
Principal payments on capital-related vendor financing	(7.9)	(10.0)
Principal payments on finance leases	(1.8)	(1.9)
Adjusted free cash flow	<u>\$ (319.3)</u>	<u>\$ (141.2)</u>

- (a) For purposes of our condensed consolidated statements of cash flows, operating-related vendor financing additions represent operating-related expenses financed by an intermediary that are treated as constructive operating cash outflows and constructive financing cash inflows when the intermediary settles the liability with the vendor. When we pay the financing intermediary, we record financing cash outflows in our consolidated statements of cash flows. For purposes of our adjusted free cash flow definition, we (i) add in the constructive financing cash inflow when the intermediary settles the liability with the vendor as our actual net cash available at that time is not affected and (ii) subsequently deduct the related financing cash outflow when we actually pay the financing intermediary, reflecting the actual reduction to our cash available to service debt or fund new investment opportunities.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

General

The capitalized terms used below have been defined in the notes to our condensed consolidated financial statements. In the following text, the terms “we,” “our,” “our company” and “us” may refer, as the context requires, to Liberty Global or collectively to Liberty Global and its subsidiaries.

We are exposed to market risk in the normal course of our business operations due to our investments in various foreign countries and ongoing investing and financing activities. Market risk refers to the risk of loss arising from adverse changes in foreign currency exchange rates, interest rates and stock prices. The risk of loss can be assessed from the perspective of adverse changes in fair values, cash flows and future earnings. As further described below, we have established policies, procedures and processes governing our management of market risks and the use of derivative instruments to manage our exposure to such risks.

The information in this section should be read in conjunction with the more complete discussion that appears under Part II, Item 7A. *Quantitative and Qualitative Disclosures About Market Risk* in our 2025 10-K. The following discussion updates selected numerical information to March 31, 2026.

Unless otherwise indicated, convenience translations into U.S. dollars are calculated as of March 31, 2026.

Cash

We invest our cash in highly liquid instruments that meet high credit quality standards. We are exposed to exchange rate risk to the extent that the denominations of our cash and cash equivalent balances, revolving lines of credit and other short-term sources of liquidity do not correspond to the denominations of our and our subsidiaries’ short-term liquidity requirements. In order to mitigate this risk, we actively manage the denominations of our cash balances in light of our and our subsidiaries’ forecasted liquidity requirements. At March 31, 2026, \$1,062.7 million or 58.1%, \$513.0 million or 28.1% and \$250.5 million or 13.7% of our consolidated cash balance was denominated in euros, U.S. dollars and British Pound Sterling, respectively, and \$46.3 million or 100.0% of our consolidated balance of investments held under SMAs was denominated in U.S. dollars.

Foreign Currency Risk

We are exposed to foreign currency exchange rate risk with respect to our consolidated debt in situations where our debt is denominated in a currency other than the functional currency of the operations whose cash flows support our ability to repay or refinance such debt. For information regarding our use of derivative instruments to manage our foreign currency exchange rate risk, see note 6 to our condensed consolidated financial statements.

The relationships between the primary currencies of the countries in which we operate and the U.S. dollar, which is our reporting currency, are shown below, per one U.S. dollar:

	<u>March 31, 2026</u>	<u>December 31, 2025</u>
Spot rates:		
Euro	0.8665	0.8521
British pound sterling	0.7567	0.7434
	Three months ended March 31,	
	<u>2026</u>	<u>2025</u>
Average rates:		
Euro	0.8542	0.9501
British pound sterling	0.7418	0.7936

Inflation and Foreign Investment Risk

We are subject to inflationary pressures with respect to labor, programming and other costs. While we attempt to increase our revenue to offset increases in costs, there is no assurance that we will be able to do so. Therefore, costs could rise faster than associated revenue, thereby resulting in a negative impact on our operating results, cash flows and liquidity. The economic environment in the respective countries in which we operate is a function of government, economic, fiscal and monetary policies and various other factors beyond our control that could lead to inflation. We are unable to predict the extent that price levels might be impacted in future periods by the current state of the economies in the countries in which we operate.

Interest Rate Risks

We are exposed to changes in interest rates primarily as a result of our borrowing activities, which include fixed-rate and variable-rate borrowings by our borrowing groups. Our primary exposure to variable-rate debt is through the EURIBOR-indexed and Term SOFR-indexed debt of our borrowing groups and the variable-rate debt of certain of our other subsidiaries.

We use benchmark interest rates to set floating rates on our debt and derivative instruments. For USD, these reference the Secured Overnight Financing Rate administered by the Federal Reserve Bank of New York or Term SOFR administered by CME Group Benchmark Administration Limited. For EUR, these reference EURIBOR administered by the European Money Markets Institute. For GBP, these reference the Sterling Overnight Index Average administered by the Bank of England.

Weighted Average Variable Interest Rate. At March 31, 2026, the outstanding principal amount of our variable-rate indebtedness aggregated \$6.8 billion, and the weighted average interest rate (including margin) on such variable-rate indebtedness was approximately 5.1%, excluding the effects of interest rate derivative contracts, deferred financing costs, original issue premiums or discounts and commitment fees, all of which affect our overall cost of borrowing. Assuming no change in the amount outstanding, and without giving effect to any interest rate derivative contracts, deferred financing costs, original issue premiums or discounts and commitment fees, a hypothetical 50 basis point (0.50%) increase (decrease) in our weighted average variable interest rate would increase (decrease) our annual consolidated interest expense and cash outflows by \$34.0 million. As discussed above and in note 6 to our condensed consolidated financial statements, we use interest rate derivative contracts to manage our exposure to increases in variable interest rates. In this regard, increases in the fair value of these contracts generally would be expected to offset most of the economic impact of increases in the variable interest rates applicable to our indebtedness to the extent and during the period that principal amounts are matched with interest rate derivative contracts.

In general, we enter into derivative instruments to protect against increases in the interest rates on our variable-rate debt. Accordingly, we have entered into various derivative transactions to manage exposure to increases in interest rates. We use interest rate derivative contracts to exchange, at specified intervals, the difference between fixed and variable interest rates calculated by reference to an agreed upon notional principal amount. From time to time, we also use interest rate cap, floor and collar agreements that lock in a maximum interest rate if variable rates rise, but also allow our company to benefit, to a limited extent in the case of collars, from declines in market rates. Under our current guidelines, we use various interest rate derivative instruments to mitigate interest rate risk. The final maturity dates of our various portfolios of interest rate derivative instruments might, in some instances, fall short of, or extend further than, the respective maturities of the underlying variable-rate debt. In this regard, we use judgment to determine the appropriate composition and maturity dates of our portfolios of interest rate derivative instruments, taking into account the relative costs and benefits of different maturity profiles in light of current and expected future market conditions, liquidity issues and other factors. For additional information concerning the impacts of these interest rate derivative instruments, see note 6 to our condensed consolidated financial statements.

Sensitivity Information

Information concerning the sensitivity of the fair value of certain of our more significant derivative instruments to changes in market conditions is set forth below. The potential changes in fair value set forth below do not include any amounts associated with the remeasurement of the derivative asset or liability into the applicable functional currency, or the impact of market moves on our credit and debit valuation adjustments. For additional information, see notes 6 and 7 to our condensed consolidated financial statements.

Telenet Cross-currency and Interest Rate Derivative Contracts

Holding all other factors constant, at March 31, 2026:

- (i) an instantaneous increase (decrease) of 10% in the value of the euro relative to the U.S. dollar would have decreased (increased) the aggregate fair value of the Telenet cross-currency and interest rate derivative contracts by approximately €295 million (\$341 million); and
- (ii) an instantaneous increase in the relevant base rate of 50 basis points (0.50%) would have increased the aggregate fair value of the Telenet cross-currency and interest rate derivative contracts by approximately €55 million (\$64 million) and, conversely, a decrease of 50 basis points would have decreased the aggregate fair value by approximately €56 million (\$65 million).

Projected Cash Flows Associated with Derivative Instruments

The following table provides information regarding the projected cash flows associated with our derivative instruments. The U.S. dollar equivalents presented below are based on interest rate projections and exchange rates as of March 31, 2026. These amounts are presented for illustrative purposes only and will likely differ from the actual cash payments or receipts required in future periods. For additional information regarding our derivative instruments, see note 6 to our condensed consolidated financial statements.

Item 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

In accordance with Rule 13a-15 of the Securities Exchange Act of 1934, as amended (the **Exchange Act**), we carried out an evaluation, under the supervision and with the participation of management, including our chief executive officer and chief financial officer (the **Executives**), of the effectiveness of our disclosure controls and procedures as of March 31, 2026. In designing and evaluating the disclosure controls and procedures, the Executives recognize that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is necessarily required to apply judgment in evaluating the cost-benefit relationship of possible controls and objectives. Based on that evaluation, the Executives concluded that our disclosure controls and procedures as of March 31, 2026 effectively provide reasonable assurance that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

Changes in Internal Controls over Financial Reporting

There have been no changes in our internal controls over financial reporting identified in connection with the evaluation described above that occurred during the fiscal quarter covered by this Quarterly Report on Form 10-Q that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

PART II — OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

From time to time, our subsidiaries and affiliates have become involved in litigation relating to claims arising out of their operations in the normal course of business. For additional information, see note 14 to our condensed consolidated financial statements in Part I of this Quarterly Report on Form 10-Q.

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

(c) Issuer Purchases of Equity Securities

Period	Total number of shares purchased	Average price paid per share (a)	Total number of shares purchased as part of publicly announced plans or programs (b)	Approximate dollar value of shares that may yet be purchased under the plans or programs

(a) Average price paid per share includes direct acquisition costs.

(b) No share repurchase program has been approved by our board of directors for 2026, and therefore, at this time, we are not authorized to repurchase any shares during 2026.

Item 5. OTHER INFORMATION

During the quarter ended March 31, 2026, none of the Company's directors or executive officers adopted or terminated any contract, instruction or written plan for the purchase or sale of Company securities that was intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) or any "non-Rule 10b5-1 trading arrangement."
