Item 2.02 RESULTS OF OPERATIONS AND FINANCIAL CONDITION / Item 7.01 REGULATION FD DISCLOSURE

On October 29, 2024, Liberty Global Ltd. (Liberty Global) issued a press release (the Q3 Press Release) announcing its operating and financial results for the quarter ended September 30, 2024. The full text of the Q3 Press Release, attached hereto as Exhibit 99.1, is incorporated herein by reference. The Q3 Press Release is being furnished to the SEC under both Item 2.02 “Results of Operations and Financial Condition” and 7.01 “Regulation FD Disclosure” of Form 8-K. The information furnished pursuant to this Form 8-K (including the exhibit hereto) shall not be considered “filed” under the Securities Exchange Act of 1934, as amended, nor shall it be incorporated by reference into any of Liberty Global’s filings under the Securities Act of 1933, as amended, or under the Securities Exchange Act of 1934, as amended, unless Liberty Global expressly states in such filing that such information is to be considered “filed” or incorporated by reference therein.

Item 5.07 SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

On October 25, 2024, Liberty Global held a special general meeting of shareholders (the Special Meeting). Liberty Global had approximately 81% of its outstanding shares entitled to vote present at the meeting (either in person or by proxy). At the Special Meeting, the following three matters were considered and voted on in connection with the previously announced spin-off (the Spin Transaction) of Sunrise Communications AG (Sunrise) following the transfer to it of the Swiss telecommunications operations of Liberty Global and its subsidiaries.

- The Spin-Off Proposal** – a proposal to approve the terms of the Spin Transaction pursuant to which (i) holders of Liberty Global Class A common shares, par value \$0.01 per share (LG Class A Shares) and Liberty Global Class C common shares, par value \$0.01 per share (LG Class C Shares) receive one Class A common share (Namenaktien) of Sunrise, par value CHF 0.10 per share (Sunrise Class A Shares), each with one vote per share, in the form of one American depositary share representing one Sunrise Class A Common Share, for every five LG Class A Shares and LG Class C Shares, as applicable, owned by such holders and (ii) holders of Liberty Global Class B common shares, par value \$0.01 per share (LG Class B Shares) receive two Class B shares with privileged voting rights (Stimmrechtsaktien) of Sunrise, par value CHF 0.01 per share (Sunrise Class B Shares), each with one vote per share, in the form of two American depositary shares representing two Sunrise Class B Shares, for each LG Class B Share owned by such holders.
- The Share Premium Reduction Proposal** – a proposal to approve a reduction of Liberty Global’s share premium account without any payment by Liberty Global to Liberty Global’s shareholders up to a maximum amount equal to the current balance of Liberty Global’s share premium account, and the grant of authority to the board of directors of Liberty Global to determine the exact amount of the share premium reduction by reference to the equity market value of Sunrise on the effective date of the Spin Transaction.
- The Adjournment Proposal** – a proposal to give Liberty Global the authority to adjourn or postpone the Special Meeting if necessary or appropriate, including to solicit additional proxies in favor of the first two proposals, if there are insufficient votes at the time of the Special Meeting to approve the first two proposals or in the absence of a quorum.

Proposals one through three were adopted. The number of votes cast for, against or withheld, as well as the number of abstentions as to each proposal are set forth below.

Proposal 1 – The Spin-Off Proposal:

PRESS RELEASE

Liberty Global Reports Q3 2024 Results

Sequential improvement in aggregate broadband & postpaid mobile net adds across all markets; fiber deployments ramping in U.K. & Belgium

On track to achieve all full-year guidance targets¹, including Sunrise Adjusted Free Cash Flow guidance refined at Capital Markets Day

Sunrise spin approved at EGM (99% in favor) with distribution set for November 12th; planned debt paydown of CHF 1.5b

Next phase of value creation post the Sunrise spin, focused on managing telecom assets for the benefit of shareholders and rotating capital into these transactions and new growth opportunities

Denver, Colorado: October 29, 2024

Liberty Global Ltd. today announced its Q3 2024 financial results.

CEO Mike Fries stated, "It was a solid quarter for our telco business operationally with sequential improvement across all markets in aggregate mobile postpaid and broadband net adds in Q3, as we begin seeing the benefits of the AI and digital tools that we're deploying to enhance the customer experience. Our fiber deployments are scaling effectively as we ramp our nexfibre and Fibre Up efforts in the U.K. along with Wyre's FTTH build across Flanders.

Meanwhile, we continue making significant progress on the strategies we've undertaken to unlock shareholder value. The 100% spin-off of Sunrise has been confirmed for November 12th, only nine months after announcement. We've injected \$1.4 billion of capital into Sunrise which, together with Adj FCF generated at Sunrise, will achieve \$1.7 billion of total deleveraging by year-end. We anticipate a CHF 240 million dividend to be paid by Sunrise in mid-2025, followed by a progressive annual dividend policy thereafter.

In terms of our Liberty Growth portfolio (previously referred to as Ventures), we will continue rotating capital out of low-growth businesses into new opportunities with secular tailwinds and scale-driven characteristics. Following a further divestment of our U.K. tower business (CTIL), as well as monetizations of our Pax8 and EdgeConnex technology investments, we expect to realize ~\$900 million² in total asset proceeds from the transactions we've announced over the last twelve months, near the top end of our \$500 million to \$1 billion target range. In October we increased our stake in Formula E to 66% and will begin consolidating the world's fastest growing motorsport from Q4.

In early October, VodafoneZiggo successfully completed a proactive refinancing of its 2027 maturities; our telecom businesses have no material debt repayments until 2028, and the average life of our debt stands at ~5 years³. At September 30, we had \$3.5 billion⁽¹⁾ of cash on our balance sheet, which is

expected to be ~\$2 billion at year end, after the \$1.4 billion capital injection into Sunrise. In addition to the fast-approaching Sunrise spin, 2024 will prove to be an exceptional year for returns to Liberty Global shareholders, as we've also acquired ~8% of our outstanding shares through October 25 against our 10% target by year-end. Our strategic focus going forward will remain squarely on unlocking the underlying value of our substantial asset base."

⁽ⁱ⁾ Including amounts held under separately managed accounts (SMAs).

Q3 Operating Company Highlights

Sunrise

(Consolidated)

Sunrise delivers another quarter of positive broadband net adds and accelerating mobile postpaid growth

Operating highlights: During Q3, Sunrise delivered a third consecutive quarter of broadband growth, achieving 1,300 net adds, primarily driven by reduced churn on the main brand. In mobile, growth in postpaid accelerated, as Sunrise delivered 43,200 postpaid net adds, supported by an improved main brand performance and reduced churn. FMC penetration of 59% across the Sunrise broadband base continues to grow steadily, increasing 1.1% YoY. The spin-off date has been confirmed for November 12.

Financial highlights: Revenue of \$865.7 million in Q3 2024 increased 0.7% YoY on a reported basis and decreased 1.3% on a rebased⁴ basis. The rebased decrease was mainly due to (i) continued rightpricing efforts and (ii) a decrease in mobile roaming revenue, partially offset by (a) continued momentum in B2B and (b) growth in flanker brands. Adjusted EBITDA increased 2.5% YoY on a reported basis and 0.3% on a rebased basis to \$318.9 million in Q3 2024, including \$1 million of costs to capture⁵. The rebased increase was mainly due to the aforementioned decline in revenue, partially offset by (1) lower costs to capture and (2) a decrease in labor costs. Adjusted EBITDA less P&E Additions of \$190.4 million in Q3 increased 8.4% YoY on a reported basis and 5.9% on a rebased basis, including \$3 million of opex and capex costs to capture.

(Consolidated)

Telenet delivers strong financial results and an improved trend in operating performance

Operating highlights: During Q3, Telenet delivered growth in postpaid mobile net adds of 800 despite an intensely competitive market environment. The broadband base contracted by 4,000 during the quarter.

The improved sequential performance was driven by the nationwide launch of Telenet's BASE FMC offer in June and the continued focus on customer centricity. FMC penetration remained stable at 50%.

Financial highlights: Revenue of \$785.2 million in Q3 2024 increased 1.3% YoY on a reported basis and 0.3% on a rebased basis. The rebased increase was primarily driven by the net effect of (i) the one-off impact of the recognition of previously deferred revenue of approximately \$18 million during Q3 2024, (ii) a decrease in mobile revenue driven by lower interconnect revenue and handset sales and (iii) a decrease in B2B wholesale revenue following the loss of the VOO MVNO contract. Adjusted EBITDA increased 6.2% YoY on a reported basis and 5.2% on a rebased basis to \$360.9 million in Q3, primarily due to continued cost control and the aforementioned one-off impact of the recognition of previously deferred revenue, partially offset by (a) higher staff-related expenses and (b) an increase in sales and marketing costs. Reported and rebased Adjusted EBITDA less P&E Additions decreased 17.5% and 18.2%, respectively, to \$134.3 million in Q3.

(Non-consolidated Joint Venture)

VMO2 continues targeted investments and reaffirms 2024 guidance

Operating highlights: VMO2 delivered on both volume and value in Q3, with a return to positive fixed customer net adds of 15,000 and fixed ARPU growth of 2.2% YoY. Targeted investment in sales and marketing drove an increase of over 40% in gross additions in the nexfibre expansion footprint compared to Q2, while the VMO2 existing footprint remained broadly stable with a modest loss in the quarter. In mobile, the postpaid base declined modestly by 15,300. The sequential improvement was driven by a reduction in churn. Fiber build pace increased by 44% in the first nine months of 2024 compared to 2023, and during Q3 the total serviceable footprint grew by 281,100 homes, principally through build on behalf of nexfibre. This includes the transfer of the first Upp premises from VMO2 to nexfibre following the acquisition of the altnet in 2023 and the successful completion of integration work, with the majority of the 175,000 acquired premises still to be transferred. During the quarter, VMO2 and Vodafone reached a new long-term partnership with Cellnex UK to provide both Mobile Network Operators with tower infrastructure and associated services.

Financial highlights (in U.S. GAAP): Revenue¹¹ of \$3,512.7 million in Q3 2024 increased 0.3% YoY on a reported basis and decreased 2.4% YoY on a rebased basis. The rebased decrease was primarily due to the net effect of (i) a decrease in mobile revenue due to lower handset sales, (ii) an increase in residential fixed revenue and (iii) a one-time increase in Q3 2023 of \$48 million due to a change in the contract terms with a related-party supplier, with each revenue category as defined and reported by the VMO2 JV. Q3 Adjusted EBITDA¹¹ was flat YoY on a reported basis and decreased 2.7% YoY on a rebased basis to \$1,170.9 million, including \$11 million of opex costs to capture. The YoY decrease in Adjusted EBITDA was primarily due to the net effect of (a) a benefit of approximately \$18 million during Q3 2024 related to higher capitalized costs by the VMO2 JV due to a change in the terms of a related-party contract and (b) the aforementioned one-time revenue increase in Q3 2023. Q3 Adjusted EBITDA less P&E Additions¹¹ was flat YoY on a reported basis and decreased 2.7% YoY on a rebased basis to \$483.1 million, including \$38 million of opex and capex costs to capture.

Financial highlights (in IFRS): Revenue of £2,701.8 million (\$3,512.7 million) in Q3 2024 decreased 2.4% YoY on a rebased basis. Q3 Adjusted EBITDA of £994.0 million (\$1,292.0 million), including costs

to capture, decreased 2.9% YoY on a rebased basis. Q3 Adjusted EBITDA less P&E Additions of £178.2 million (\$235.7 million), including costs to capture, decreased 58.0% YoY on a rebased basis. The drivers of these IFRS changes are largely consistent with those under U.S. GAAP detailed above.

For more information regarding the VMO2 JV, including full IFRS disclosures, please visit its investor relations page to access the Q3 earnings release.

(Non-consolidated Joint Venture)

VodafoneZiggo delivers a Q3 performance in line with expectations and reconfirms 2024 guidance

Operating highlights: During Q3, mobile postpaid net adds grew by 2,300, driven by improved sales. The broadband base contracted by 20,400 in the quarter, as a 25,500 decline in Consumer was only partially offset by a 5,100 increase in B2B. Both mobile and fixed ARPU continued to grow in the quarter, supported by the benefit of the mobile price indexation implemented in October 2023 and the fixed price indexation in July. The FMC⁷ broadband households penetration increased to 49%.

Financial highlights: Revenue increased 0.5% YoY on a reported basis and decreased 0.5% YoY on a rebased basis to \$1,131.1 million in Q3. The rebased decrease was primarily due to a decline in the B2C fixed customer base, partially offset by growth in mobile and B2B revenue. Adjusted EBITDA increased 1.8% YoY on a reported basis and 0.8% on a rebased basis to \$527.8 million in Q3. The rebased increase was primarily driven by (i) cost control measures in customer service, IT, procurement and business contracting services and (ii) lower energy costs, partially offset by (a) higher programming costs related to the UEFA broadcast, (b) wage increases related to the collective labor agreement and (c) the aforementioned decrease in revenue. Adjusted EBITDA less P&E Additions increased 8.6% YoY on a reported basis and 7.5% on a rebased basis to \$312.1 million in Q3.

Liberty Global Consolidated Q3 Highlights

- Q3 revenue increased 4.4% YoY on a reported basis and 2.6% on a rebased basis to \$1,935.2 million
- Q3 net earnings (loss) decreased 271.5% YoY on a reported basis to (\$1,410.9 million)
- Q3 Adjusted EBITDA increased 11.8% YoY on a reported basis and 9.4% on a rebased basis to \$668.3 million
- Q3 property and equipment additions were 19.9% of revenue, as compared to 19.7% in Q3 2023
- Balance sheet with \$5.0 billion of total liquidity⁸
 - Comprised of \$2.4 billion of cash, \$1.1 billion of investments held under SMAs and over \$1.5 billion of unused borrowing capacity⁹
- Blended, fully-swapped borrowing cost of 3.44% on a debt balance of \$16.0 billion

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements with respect to our strategies, future growth prospects and opportunities; expectations regarding our and our businesses' financial performance, including Revenue and Rebased Revenue, Adjusted EBITDA, Adjusted EBITDA less P&E Additions, operating and capital expenses, property and equipment additions, Adjusted Free Cash Flow, Distributable Cash Flow and ARPU metrics, as well as our and our operating companies' 2024 financial guidance, including revisions, provided by us and our operating companies and joint ventures, which includes expected capital intensity; our future strategies for maximizing and creating value for our shareholders; the anticipated spin-off of our Swiss operating company, Sunrise, including the timing of the transaction and the timing, amount and use of funds by Sunrise from the capital injection to be made by Liberty Global, as well as any anticipated dividends to be paid from Sunrise and the timing thereof; the expected drivers of future operational and financial performance at our operating companies and our joint ventures, including the use of AI technologies; our, our affiliates' and our joint ventures' plans with respect to networks, products and services and the investments in such networks, products and services, including the planned fiber upgrade programs in the U.K. and Belgium; expectations with respect to VMO2's partnership with Vodafone and Cellnex UK and the timing, costs and expected benefits to be derived therefrom; our strategic plans for our Liberty Growth portfolio (previously referred to as the Ventures portfolio), including any expected capital rotation between investments and the proceeds to be received therefrom; our share repurchase program, including the amount of shares we intend to repurchase during the year; the strength of our and our affiliates' respective balance sheets (including cash and liquidity position); the tenor and cost of our third-party debt and anticipated borrowing capacity, including at Sunrise following its spin-off from Liberty Global; and other information and statements that are not historical fact. These forward-looking statements involve certain risks and uncertainties that could cause actual results to differ materially from those expressed or implied by these statements. These risks and uncertainties include events that are outside of our control, such as the continued use by subscribers and potential subscribers of our and our affiliates' and joint ventures' services and their willingness to upgrade to our more advanced offerings; our, our affiliates' and our joint ventures' ability to meet challenges from competition, to manage rapid technological change or to maintain or increase rates to subscribers or to pass through increased costs to subscribers; the potential impact of pandemics and epidemics on us and our businesses as well as our customers; the effects of changes in laws or regulations; the effects of the U.K.'s exit from the E.U.; general economic factors; our, our affiliates' and our joint ventures' ability to obtain regulatory approval and satisfy regulatory conditions associated with acquisitions and dispositions; our, our affiliates' and our joint ventures' ability to successfully acquire and integrate new businesses and realize anticipated efficiencies from acquired businesses; the availability of attractive programming for our, our affiliates' and our joint ventures' video services and the costs associated with such programming; our, our affiliates' and our joint ventures' ability to achieve forecasted financial and operating targets; the outcome of any pending or threatened litigation; the ability of our operating companies and affiliates and joint ventures to access the cash of their respective subsidiaries; the impact of our operating companies', affiliates' and joint ventures' future financial performance, or market conditions generally, on the availability, terms and deployment of capital; fluctuations in currency exchange and interest rates; the ability of suppliers, vendors and contractors to timely deliver quality products, equipment, software, services and access; our, our affiliates' and our joint ventures' ability to adequately forecast and plan future network requirements including the costs and benefits associated with network expansions and upgrades; and other factors detailed from time to time in our filings with the Securities and Exchange Commission (the "SEC"), including our most recently filed Form 10-K, Form 10-K/A and Form 10-Qs. These forward-looking statements speak only as of the date of this release. We expressly disclaim any obligation or undertaking to disseminate any updates or revisions to any forward-looking statement contained herein to reflect any change in our expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based.

Share Repurchase Program

Our share buyback plan for 2024 authorized the repurchase of up to 10% of our outstanding shares as of December 31, 2023. Under the program, Liberty Global may acquire from time to time its Class A common shares, Class C common shares, or any combination of Class A and Class C ordinary shares. The program may be effected through open market transactions and/or privately negotiated transactions, which may include derivative transactions. The timing of the repurchase of shares pursuant to the program will depend on a variety of factors, including market conditions and applicable law. The program may be implemented in conjunction with brokers for Liberty Global and other financial institutions with whom Liberty Global has relationships within certain pre-set parameters, and purchases may continue during closed periods in accordance with applicable restrictions. The program may be suspended or discontinued at any time and will terminate upon repurchasing the authorized limits unless further repurchase authorization is provided for.

About Liberty Global

Balance Sheets, Statements of Operations and Statements of Cash Flows

The condensed consolidated balance sheets, statements of operations and statements of cash flows of Liberty Global are in our 10-Q.

Rebase Information

Rebase growth percentages, which are non-GAAP measures, are presented as a basis for assessing growth rates on a comparable basis. For purposes of calculating rebase growth rates on a comparable basis for all businesses that we owned during 2024, we have adjusted our historical revenue, Adjusted EBITDA and Adjusted EBITDA less P&E Additions for the three and nine months ended September 30, 2023 to (i) include the pre-acquisition revenue, Adjusted EBITDA and P&E Additions to the same extent these entities are included in our results for the three and nine months ended September 30, 2024, (ii) exclude from our rebased amounts the revenue, Adjusted EBITDA and P&E Additions of entities disposed of to the same extent these entities are excluded in our results for the three and nine months ended September 30, 2024, (iii) include in our rebased amounts the revenue and costs for the temporary elements of transitional and other services provided to Iliad, Vodafone and Deutsche Telekom, to reflect amounts related to these services equal to those included in our results for the three and nine months ended September 30, 2024 and (iv) reflect the translation of our rebased amounts at the applicable average foreign currency exchange rates that were used to translate our results for the three and nine months ended September 30, 2024. We have reflected the revenue, Adjusted EBITDA and P&E Additions of these acquired entities in our 2023 rebased amounts based on what we believe to be the most reliable information that is currently available to us (generally pre-acquisition financial statements), as adjusted for the estimated effects of (a) any significant differences between U.S. GAAP and local generally accepted accounting principles, (b) any significant effects of acquisition accounting adjustments, (c) any significant differences between our accounting policies and those of the acquired entities and (d) other items we deem appropriate. We do not adjust pre-acquisition periods to eliminate nonrecurring items or to give retroactive effect to any changes in estimates that might be implemented during post-acquisition periods. As we did not own or operate the acquired businesses during the pre-acquisition periods, no assurance can be given that we have identified all adjustments necessary to present the revenue, Adjusted EBITDA and Adjusted EBITDA less P&E Additions of these entities on a basis that is comparable to the corresponding post-acquisition amounts that are included in our results or that the pre-acquisition financial statements we have relied upon do not contain undetected errors. In addition, the rebase growth percentages are not necessarily indicative of the revenue, Adjusted EBITDA and Adjusted EBITDA less P&E Additions that would have occurred if these transactions had occurred on the dates assumed for purposes of calculating our rebased amounts or the revenue, Adjusted EBITDA and Adjusted EBITDA less P&E Additions that will occur in the future. Investors should view rebase growth as a supplement to, and not a substitute for, U.S. GAAP measures of performance included in our condensed consolidated statements of operations.

The following table provides adjustments made to the 2023 amounts (i) in aggregate for our consolidated reportable segments and (ii) for the non-consolidated VMO2 JV and VodafoneZiggo JV to derive our rebased growth rates:

	Three months ended September 30, 2023			Nine months ended September 30, 2023

Foreign currency	<u>\$ 0.6</u>	<u>\$ 5.1</u>	<u>\$ 2.7</u>	<u>\$ 10.0</u>	<u>\$ 4.3</u>	<u>\$ 2.1</u>

⁽ⁱ⁾ In addition to our acquisitions and dispositions, these rebase adjustments include amounts related to agreements to provide transitional and other services to Iliad, Vodafone and Deutsche Telekom. These adjustments result in an equal amount of fees in both the 2024 and 2023 periods for those services that are deemed to be temporary in nature.

⁽ⁱⁱ⁾ Amounts reflect 100% of the adjustments made related to the VMO2 JV's and the VodafoneZiggo JV's revenue, Adjusted EBITDA and Adjusted EBITDA less P&E Additions, which we do not consolidate, as we hold a 50% noncontrolling interest in the VMO2 JV and the VodafoneZiggo JV.

Liquidity

The following table⁽ⁱ⁾ details the U.S. dollar equivalents of our liquidity position at September 30, 2024, which includes our (i) cash and cash equivalents, (ii) investments held under SMAs and (iii) unused borrowing capacity:

Property and equipment additions as % of revenue	19.9%	19.7%	19.6%	19.9%

⁽ⁱ⁾ Amounts exclude related VAT of \$3.6 million and \$4.9 million for the three months ended September 30, 2024 and 2023, respectively, and \$10.9 million and \$14.8 million for the nine months ended September 30, 2024 and 2023, respectively, that were also financed under these arrangements.

⁽ⁱⁱ⁾ The capital expenditures that we report in our condensed consolidated statements of cash flows do not include amounts that are financed under vendor financing or finance lease arrangements. Instead, these expenditures are reflected as non-cash additions to our property and equipment when the underlying assets are delivered, and as repayments of debt when the related principal is repaid.

Footnotes for Operating Data and Subscriber Variance Tables

- (i) At Sunrise, we offer a 10 Mbps internet service to our Video Subscribers without an incremental recurring fee. Our Internet Subscribers at Sunrise include approximately 37,900 subscribers who have requested and received this service.
- (ii) We have approximately 27,500 "lifeline" customers that are counted on a per connection basis, representing the least expensive regulated tier of video service, with only a few channels.
- (iii) At Sunrise, we offer a basic phone service to our Video Subscribers without an incremental recurring fee. Our Telephony Subscribers at Sunrise include approximately 50,400 subscribers who have requested and received this service.
- (iv) In a number of countries, our mobile subscribers receive mobile services pursuant to prepaid contracts. As of September 30, 2024, our mobile subscriber count included approximately 345,600, 203,800, 7,622,600 and 282,100 prepaid mobile subscribers at Sunrise, Telenet, the VMO2 JV and the VodafoneZiggo JV, respectively. Prepaid mobile customers are excluded from the VMO2 JV's and the VodafoneZiggo JV's mobile subscriber counts after a period of inactivity of three months and nine months, respectively. The mobile subscriber count for the VMO2 JV includes IoT connections, which are Machine-to-Machine contract mobile connections, including Smart Metering contract connections. The mobile subscriber count presented above for the VMO2 JV excludes wholesale mobile connections of approximately 9,928,200 that are included in the total mobile subscriber count as defined and presented by the VMO2 JV.
- (v) Pursuant to service agreements, Sunrise offers broadband internet, video and telephony services over networks owned by third-party operators ("partner networks"), and following the acquisition of Sunrise, also services homes through Sunrise's existing agreements with Swisscom, Swiss Fibre Net and local utilities. Under these agreements, RGUs are only recognized if there is a direct billing relationship with the customer. Homes passed or serviceable through the above service agreements are not included in Sunrise's homes passed count as we do not own these networks. Including these arrangements, our operations at Sunrise have the ability to offer fixed services to the national footprint.
- (vi) Includes our business in Luxembourg as a result of Telenet's January 2023 acquisition of Eltrona.
- (vii) Fixed-line customer counts for the VMO2 JV exclude Upp customers.
- (viii) Fixed-line counts for the VodafoneZiggo JV include certain B2B customers and subscribers.

Additional General Notes to Tables:

Most of our broadband communications subsidiaries provide broadband internet, telephony, data, video or other B2B services. Certain of our B2B revenue is derived from SOHO subscribers that pay a premium price to receive enhanced service levels along with internet, video or telephony services that are the same or similar to the mass marketed products offered to our residential subscribers. All mass marketed products provided to SOHOs, whether or not accompanied by enhanced service levels and/or premium prices, are included in the respective RGU and customer counts of our broadband communications operations, with only those services provided at premium prices considered to be "SOHO RGUs" or "SOHO customers". To the extent our existing customers upgrade from a residential product offering to a SOHO product offering, the number of SOHO RGUs or SOHO customers will increase, but there is no impact to our total RGU or customer counts. With the exception of our B2B SOHO subscribers and mobile subscribers at medium and large enterprises, we generally do not count customers of B2B services as customers or RGUs for external reporting purposes.

In Belgium, Telenet leases a portion of its network under a long-term finance lease arrangement. These tables include operating statistics for Telenet's owned and leased networks.

While we take appropriate steps to ensure that subscriber statistics are presented on a consistent and accurate basis at any given balance sheet date, the variability from country to country in (i) the nature and pricing of products and services, (ii) the distribution platform, (iii) billing systems, (iv) bad debt collection experience and (v) other factors add complexity to the subscriber counting process. We periodically review our subscriber counting policies and underlying systems to improve the accuracy and consistency of the data reported on a prospective basis. Accordingly, we may from time to time make appropriate adjustments to our subscriber statistics based on those reviews.

Subscriber information for acquired entities is preliminary and subject to adjustment until we have completed our review of such information and determined that it is presented in accordance with our policies.

Footnotes

- 1 Quantitative reconciliations to net earnings/loss (including net earnings/loss growth rates) and cash flow from operating activities for Adjusted EBITDA, Adjusted EBITDAaL, and Adjusted FCF guidance cannot be provided without unreasonable efforts as we do not forecast (i) certain non-cash charges including: the components of non-operating income/expense, depreciation and amortization, and impairment, restructuring and other operating items included in net earnings/loss from continuing operations, nor (ii) specific changes in working capital that impact cash flows from operating activities. The items we do not forecast may vary significantly from period to period.
- 2 Includes (i) \$419 million of cash received from the sale of All3Media, including the repayment of principal and interest associated with notes receivable, (ii) our 50% share of the estimated \$683 million of total proceeds in connection with the VMO2 JV's partial sale of CTIL (including expected proceeds of ~\$248 million from the additional 8.3% stake sale announced in Q3 2024), and (iii) ~\$120 million of cash received in connection with the October 2024 sale of Pax8 and partial sale of EdgeConnex.
- 3 Includes both our consolidated operations and non-consolidated VMO2 and VodafoneZiggo JVs.
- 4 The indicated growth rates are rebased for acquisitions, dispositions, FX and other items that impact the comparability of our year-over-year results. See the Rebase Information section for more information on rebased growth.
- 5 Costs to capture generally include incremental, third-party operating and capital related costs that are directly associated with integration activities, restructuring activities and certain other costs associated with aligning an acquiree to our business processes to derive synergies. These costs are necessary to combine the operations of a business being acquired (or joint venture being formed) with ours or are incidental to the acquisition. As a result, costs to capture may include certain (i) operating costs that are included in Adjusted EBITDA, (ii) capital-related costs that are included in property and equipment additions and Adjusted EBITDA less P&E Additions and (iii) certain integration-related restructuring expenses that are not included within Adjusted EBITDA or Adjusted EBITDA less P&E Additions. Given the achievement of synergies occurs over time, certain of our costs to capture are recurring by nature, and generally incurred within a few years of completing the transaction.
- 6 This release includes the actual U.S. GAAP results for the VMO2 JV for the three and nine months ended September 30, 2024 and 2023. The commentary and YoY growth rates presented in this release are shown on a rebased basis. For more information regarding the VMO2 JV, including full IFRS disclosures, please visit their investor relations page to access the VMO2 JV's Q3 earnings release.
- 7 Converged households or converged SIMs represent customers in either our Consumer or SOHO segment that subscribe to both a fixed-line digital TV and an internet service and Vodafone and/or hollandsnieuwe postpaid mobile telephony service.
- 8 Liquidity refers to cash and cash equivalents and investments held under separately managed accounts plus the maximum undrawn commitments under subsidiary borrowing facilities, without regard to covenant compliance calculations or other conditions precedent to borrowing.
- 9 Our aggregate unused borrowing capacity of \$1,585.3 million represents the maximum undrawn commitments under the applicable facilities without regard to covenant compliance calculations or other conditions precedent to borrowing. Upon completion of the relevant September 30, 2024 compliance reporting requirements for our credit facilities, and assuming no further changes from quarter-end borrowing levels, we anticipate that the full unused borrowing capacity will continue to be available under each of the respective subsidiary facilities. Our above expectations do not consider any actual or potential changes to our borrowing levels or any amounts loaned or distributed subsequent to September 30, 2024.
- 10 For purposes of calculating our average tenor, total third-party debt excludes vendor financing, certain debt obligations that we assumed in connection with various acquisitions, and liabilities related to Telenet's acquisition of mobile spectrum licenses. The percentage of debt not due until 2030 or thereafter includes all of these amounts.

11 The U.S. GAAP YoY growth rates for the VMO2 JV are impacted by recurring U.S. GAAP to IFRS accounting differences, as further described and reconciled below.

Glossary

10-Q or 10-K: As used herein, the terms 10-Q and 10-K refer to our most recent quarterly or annual report as filed with the Securities and Exchange Commission on Form 10-Q or Form 10-K, as applicable.

Adjusted EBITDA, Adjusted EBITDA less P&E Additions and Property and Equipment Additions (P&E Additions):

- Adjusted EBITDA:** Adjusted EBITDA is the primary measure used by our chief operating decision maker to evaluate segment operating performance and is also a key factor that is used by our internal decision makers to (i) determine how to allocate resources to segments and (ii) evaluate the effectiveness of our management for purposes of annual and other incentive compensation plans. As we use the term, Adjusted EBITDA is defined as net earnings (loss) before net income tax benefit (expense), other non-operating income or expenses, net share of results of affiliates, net gains (losses) on debt extinguishment, net realized and unrealized gains (losses) due to changes in fair values of certain investments, net foreign currency transaction gains (losses), net gains (losses) on derivative instruments, net interest expense, depreciation and amortization, share-based compensation, provisions and provision releases related to significant litigation and impairment, restructuring and other operating items. Other operating items include (a) gains and losses on the disposition of long-lived assets, (b) third-party costs directly associated with successful and unsuccessful acquisitions and dispositions, including legal, advisory and due diligence fees, as applicable, and (c) other acquisition-related items, such as gains and losses on the settlement of contingent consideration. Our internal decision makers believe Adjusted EBITDA is a meaningful measure because it represents a transparent view of our recurring operating performance that is unaffected by our capital structure and allows management to (1) readily view operating trends, (2) perform analytical comparisons and benchmarking between segments and (3) identify strategies to improve operating performance in the different countries in which we operate. We believe our consolidated Adjusted EBITDA measure, which is a non-GAAP measure, is useful to investors because it is one of the bases for comparing our performance with the performance of other companies in the same or similar industries, although our measure may not be directly comparable to similar measures used by other public companies. Consolidated Adjusted EBITDA should be viewed as a measure of operating performance that is a supplement to, and not a substitute for, U.S. GAAP measures of income included in our condensed consolidated statements of operations.
- Adjusted EBITDA less P&E Additions:** We define Adjusted EBITDA less P&E Additions, which is a non-GAAP measure, as Adjusted EBITDA less P&E Additions on an accrual basis. Adjusted EBITDA less P&E Additions is a meaningful measure because it provides (i) a transparent view of Adjusted EBITDA that remains after our capital spend, which we believe is important to take into account when evaluating our overall performance and (ii) a comparable view of our performance relative to other telecommunications companies. Our Adjusted EBITDA less P&E Additions measure may differ from how other companies define and apply their definition of similar measures. Adjusted EBITDA less P&E Additions should be viewed as a measure of operating performance that is a supplement to, and not a substitute for, U.S. GAAP measures of income included in our condensed consolidated statements of operations.
- P&E Additions:** Includes capital expenditures on an accrual basis, amounts financed under vendor financing or finance lease arrangements and other non-cash additions. A reconciliation of net earnings (loss) to Adjusted EBITDA less P&E Additions is presented in the following table:

Adjusted EBITDA after leases (Adjusted EBITDAaL): We define Adjusted EBITDAaL as Adjusted EBITDA as further adjusted to include finance lease related depreciation and interest expense. Our internal decision makers believe Adjusted EBITDAaL is a meaningful measure because it represents a transparent view of our recurring operating performance that includes recurring lease expenses necessary to operate our business. We believe Adjusted EBITDAaL, which is a non-GAAP measure, is useful to investors because it is one of the bases for comparing our performance with the performance of other companies in the same or similar industries, although our measure may not be directly comparable to similar measures used by other public companies. Adjusted EBITDAaL should be viewed as a measure of operating performance that is a supplement to, and not a substitute for, U.S. GAAP measures of income included in our condensed consolidated statements of operations.

Adjusted Free Cash Flow (Adjusted FCF) & Distributable Cash Flow:

- **Adjusted FCF:** We define Adjusted FCF as net cash provided by operating activities, plus operating-related vendor financed expenses (which represents an increase in the period to our actual cash available as a result of extending vendor payment terms beyond normal payment terms, which are typically 90 days or less, through non-cash financing activities), less (i) cash payments in the period for capital expenditures, (ii) principal payments on operating- and capital-related amounts financed by vendors and intermediaries (which represents a decrease in the period to our actual cash available as a result of paying amounts to vendors and intermediaries where we previously had extended vendor payments beyond the normal payment terms), and (iii) principal payments on finance leases (which represents a decrease in the period to our actual cash available), each as reported in our condensed consolidated statements of cash flows. Net cash provided by operating activities includes cash paid for third-party costs directly associated with successful and unsuccessful acquisition and dispositions of \$1.7 million and \$7.7 million during the three months ended September 30, 2024 and 2023, respectively, and \$7.6 million and \$23.8 million during the nine months ended September 30, 2024 and 2023, respectively.
- **Distributable Cash Flow:** We define Distributable Cash Flow as Adjusted FCF plus any dividends received from our equity affiliates that are funded by activities outside of their normal course of operations, including, for example, those funded by recapitalizations (referred to as "Other Affiliate Dividends").

We believe our presentation of Adjusted FCF and Distributable Cash Flow, each of which is a non-GAAP measure, provides useful information to our investors because these measures can be used to gauge our ability to (i) service debt and (ii) fund new investment opportunities after consideration of all actual cash payments related to our working capital activities and expenses that are capital in nature, whether paid inside normal vendor payment terms or paid later outside normal vendor payment terms (in which case we typically pay in less than 365 days). Adjusted FCF and Distributable Cash Flow should not be understood to represent our ability to fund discretionary amounts, as we have various mandatory and contractual obligations, including debt repayments, that are not deducted to arrive at these amounts. Investors should view Adjusted FCF and Distributable Cash Flow as supplements to, and not substitutes for, U.S. GAAP measures of liquidity included in our condensed consolidated statements of cash flows. Further, our Adjusted FCF and Distributable Cash Flow may differ from how other companies define and apply their definition of Adjusted FCF or other similar measures. The following table provides a reconciliation of our net cash provided by operating activities to Adjusted FCF and Distributable Cash Flow for the indicated periods.

Distributable Cash Flow	\$ 91.1	\$ 309.4	\$ 164.2	\$ 863.2

⁽ⁱ⁾ For purposes of our condensed consolidated statements of cash flows, operating-related vendor financing additions represent operating-related expenses financed by an intermediary that are treated as constructive operating cash outflows and constructive financing cash inflows when the intermediary settles the liability with the vendor. When we pay the financing intermediary, we record financing cash outflows in our condensed consolidated statements of cash flows. For purposes of our Adjusted FCF definition, we (i) add in the constructive financing cash inflow when the intermediary settles the liability with the vendor as our actual net cash available at that time is not affected and (ii) subsequently deduct the related financing cash outflow when we actually pay the financing intermediary, reflecting the actual reduction to our cash available to service debt or fund new investment opportunities.

ARPU: Average Revenue Per Unit is the average monthly subscription revenue per average fixed customer relationship or mobile subscriber, as applicable. ARPU per average fixed-line customer relationship is calculated by dividing the average monthly subscription revenue from residential fixed and SOHO services by the average number of fixed-line customer relationships for the period. ARPU per average mobile subscriber is calculated by dividing mobile subscription revenue for the indicated period by the average number of mobile subscribers for the period. Unless otherwise indicated, ARPU per fixed customer relationship or mobile subscriber is not adjusted for currency impacts. ARPU per RGU refers to average monthly revenue per average RGU, which is calculated by dividing the average monthly subscription revenue from residential and SOHO services for the indicated period, by the average number of the applicable RGUs for the period. Unless otherwise noted, ARPU in this release is considered to be ARPU per average fixed customer relationship or mobile subscriber, as applicable. Fixed-line customer relationships, mobile subscribers and RGUs of entities acquired during the period are normalized. In addition, for purposes of calculating the percentage change in ARPU on a rebased basis, which is a non-GAAP measure, we adjust the prior-year subscription revenue, fixed-line customer relationships, mobile subscribers and RGUs, as applicable, to reflect acquisitions, dispositions and FX on a comparable basis with the current year, consistent with how we calculate our rebased growth for revenue and Adjusted EBITDA, as further described in the body of this release.

ARPU per Mobile Subscriber: Our ARPU per mobile subscriber calculation that excludes interconnect revenue refers to the average monthly mobile subscription revenue per average mobile subscriber and is calculated by dividing the average monthly mobile subscription revenue (excluding handset sales and late fees) for the indicated period, by the monthly average of the opening and closing balances of mobile subscribers in service for the period. Our ARPU per mobile subscriber calculation that includes interconnect revenue increases the numerator in the above-described calculation by the amount of mobile interconnect revenue during the period.

Blended, fully-swapped debt borrowing cost (or WACD): The weighted average interest rate on our aggregate variable- and fixed-rate indebtedness (excluding finance leases and including vendor financing obligations), including the effects of derivative instruments, original issue premiums or discounts and commitment fees, but excluding the impact of financing costs. The weighted average interest rate calculation includes principal amounts outstanding associated with all of our secured and unsecured borrowings.

B2B: Business-to-Business.

Customer Churn: The rate at which customers relinquish their subscriptions. The annual rolling average basis is calculated by dividing the number of disconnects during the preceding 12 months by the average number of customer relationships. For the purpose of computing churn, a disconnect is deemed to have occurred if the customer no longer receives any level of service from us and is required to return our equipment. A partial product downgrade, typically used to encourage customers to pay an outstanding bill and avoid complete service disconnection, is not considered to be disconnected for purposes of our churn calculations. Customers who move within our footprint and upgrades and downgrades between services are also excluded from the disconnect figures used in the churn calculation.

Debt and Net Debt Ratios: Our debt and net debt ratios, which are non-GAAP metrics, are defined as total debt and net debt, respectively, divided by reported net loss for the last twelve months (reported LTM net loss) and Adjusted EBITDA for the last twelve months (LTM Adjusted EBITDA). Net debt is defined as total debt less cash and cash equivalents and investments held under SMAs. For purposes of these calculations, debt is measured using swapped foreign currency rates, consistent with the covenant calculation requirements of our subsidiary debt agreements. The following table details the calculation of our debt and net debt to reported LTM net loss and LTM Adjusted EBITDA ratios as of and for the twelve months ended September 30, 2024 (in millions, except ratios):

Fixed-Line Customer Relationships: The number of customers who receive at least one of our internet, video or telephony services that we count as RGUs, without regard to which or to how many services they subscribe. Fixed-Line Customer Relationships generally are counted on a unique premises basis. Accordingly, if an individual receives our services in two premises (e.g., a primary home and a vacation home), that individual generally will count as two Fixed-Line Customer Relationships. We exclude mobile-only customers from Fixed-Line Customer Relationships.

Fixed-Mobile Convergence (FMC): Fixed-mobile convergence penetration represents the number of customers who subscribe to both a fixed broadband internet service and postpaid mobile telephony service, divided by the total number of customers who subscribe to our fixed broadband internet service.

Homes Passed: Homes, residential multiple dwelling units or commercial units that can be connected to our networks without materially extending the distribution plant. Certain of our Homes Passed counts are based on census data that can change based on either revisions to the data or from new census results.

Internet Subscriber: A home, residential multiple dwelling unit or commercial unit that receives internet services over our networks, or that we service through a partner network.

Lightning Premises: Includes homes, residential multiple dwelling units and commercial premises that potentially could subscribe to our residential or SOHO services, which have been connected to the VMO2 JV's networks in the U.K. and Ireland as a part of the Project Lightning network extension program. Project Lightning infill build relates to construction in areas adjacent to our existing network.

Mobile Subscriber Count: For residential and business subscribers, the number of active SIM cards in service rather than services provided. For example, if a mobile subscriber has both a data and voice plan on a smartphone this would equate to one mobile subscriber. Alternatively, a subscriber who has a voice and data plan for a mobile handset and a data plan for a laptop would be counted as two mobile subscribers. Customers who do not pay a recurring monthly fee are excluded from our mobile telephony subscriber counts after periods of inactivity ranging from 30 to 90 days, based on industry standards within the respective country. In a number of countries, our mobile subscribers receive mobile services pursuant to prepaid contracts.

MVNO: Mobile Virtual Network Operator.

RGU: A Revenue Generating Unit is separately an Internet Subscriber, Video Subscriber or Telephony Subscriber. A home, residential multiple dwelling unit, or commercial unit may contain one or more RGUs. For example, if a residential customer subscribed to our broadband internet service, video service and fixed-line telephony service, the customer would constitute three RGUs. Total RGUs is the sum of Internet, Video and Telephony Subscribers. RGUs generally are counted on a unique premises basis such that a given premise does not count as more than one RGU for any given service. On the other hand, if an individual receives one of our services in two premises (e.g., a primary home and a vacation home), that individual will count as two RGUs for that service. Each bundled internet, video or telephony service is counted as a separate RGU regardless of the nature of any bundling discount or promotion. Non-paying subscribers are counted as subscribers during their free promotional service period. Some of these subscribers may choose to disconnect after their free service period. Services offered without charge on a long-term basis (e.g., VIP subscribers or free service to employees) generally are not counted as RGUs. We do not include subscriptions to mobile services in our externally reported RGU counts. In this regard, our RGU counts exclude our separately reported postpaid and prepaid mobile subscribers.

SIM: Subscriber Identification Module.

SOHO: Small or Home Office Subscribers.

Tech Framework: Our centrally-managed technology and innovation function (our T&I Function) provides, and allocates charges for, certain products and services to our consolidated reportable segments (the Tech Framework). These products and services include CPE hardware and related essential software, maintenance, hosting and other services. Our consolidated reportable segments capitalize the combined cost of the CPE hardware and essential software as property and equipment additions and the corresponding amounts charged by our T&I Function are reflected as revenue when earned.

Telephony Subscriber: A home, residential multiple dwelling unit or commercial unit that receives voice services over our networks, or that we service through a partner network. Telephony Subscribers exclude mobile telephony subscribers.

U.S. GAAP: Accounting principles generally accepted in the United States.

Video Subscriber: A home, residential multiple dwelling unit or commercial unit that receives our video service over our broadband network or through a partner network.

YoY: Year-over-year.
